#### Abstract of Proposed Collection

The Secretary of State is authorized to issue U.S. passports under 22 U.S.C. 211a. The Department of State, Passport Services Directorate in the Bureau of Consular Affairs administers the U.S. passport issuance program and operates passport agencies and application adjudication centers throughout the United States. As part of the Intelligence Reform and Terrorism Prevention Act of 2004, the Western Hemisphere Travel Initiative required the Secretary of Homeland Security and the Secretary of State to implement a plan to require all U.S. citizen and non-citizen nationals to present a passport and/or other sufficient documentation when entering the U.S. from abroad. This resulted in an increase in demand for U.S. passports.

The Passport Demand Forecasting Survey requests information from the general public about the demand for U.S. passports, anticipated travel, and the demographic profile of the respondent. This voluntary survey is

conducted on a monthly basis using responses from a randomly selected but nationally representative sample of the U.S. population, ages 18 and older. The information obtained from the survey is used to monitor and project the demand for U.S. passport books and U.S. passport cards. The Passport Demand Forecasting Survey aids Passport Services in making decisions about staffing, resource allocation, and budget planning.

#### Methodology

The Passport Demand Forecasting Survey uses monthly surveys that will gather data from a national representative sample of the U.S. population. Survey delivery methodologies can include mail, internet/web, telephone, and mixed-mode surveys to ensure that Passport Services reaches the appropriate audience and leverages the best research method to obtain valid responses. The survey data will cover an estimated 24,000 respondents annually.
