

to an income percentage factor of 80.33 percent.

- $0.8033 \times \$585.51 = \470.34

Step 3: Now, determine the monthly payment amount equal to 20 percent of Santiago’s discretionary income (discretionary income is AGI minus the HHS Poverty Guideline amount for a borrower’s family size and State of residence). To do this, subtract the HHS Poverty Guideline amount for a family of one from Santiago’s AGI, multiply the result by 20 percent, and then divide by 12:

- $\$41,769 - \$15,960 = \$25,809$
- $\$25,809 \times 0.20 = \$5,161.80$
- $\$5,161.80 \div 12 = \430.15

Step 4: Compare the amount from Step 2 with the amount from Step 3. In this example, Santiago would pay the amount calculated under Step 3 (\$430.15), since this is the lesser of the two amounts.

Interpolation. If an AGI is not included on the income percentage factor table, calculate the income percentage factor through linear interpolation. For example, assume that Jocelyn is single with an AGI of \$50,000.

Step 1: Find the closest AGI listed that is less than Jocelyn’s AGI of \$50,000 (\$41,769) and the closest AGI

listed that is greater than Jocelyn’s AGI of \$50,000 (\$52,462).

Step 2: Subtract the lower amount from the higher amount (for this discussion we will call the result the “income interval”):

- $\$52,462 - \$41,769 = \$10,693$

Step 3: Determine the difference between the two income percentage factors that correspond to the AGIs used in Step 2 (for this discussion, we will call the result the “income percentage factor interval”):

- $88.77 \text{ percent} - 80.33 \text{ percent} = 8.44 \text{ percent}$

Step 4: Subtract from Jocelyn’s AGI the closest AGI shown on the chart that is less than Jocelyn’s AGI of \$50,000:

- $\$50,000 - \$41,769 = \$8,231$

Step 5: Divide the result of Step 4 by the income interval determined in Step 2:

- $\$8,231 \div \$10,693 = 76.98 \text{ percent}$

Step 6: Multiply the result of Step 5 by the income percentage factor interval that was calculated in Step 3:

- $8.44 \text{ percent} \times 76.98 \text{ percent} = 6.50 \text{ percent}$

Step 7: Add the result of Step 6 to the lower of the two income percentage

factors used in Step 3 to calculate the income percentage factor interval for an AGI of \$50,000:

- $6.50 \text{ percent} + 80.33 \text{ percent} = 86.83 \text{ percent}$ (rounded to the nearest hundredth)

The result is the income percentage factor that we will use to calculate Jocelyn’s monthly repayment amount under the ICR plan.

Attachment 3—Charts Showing Sample Income Contingent Repayment (ICR) Plan Amounts for Single and Married Borrowers

Below are two charts that provide first-year payment amount estimates for a variety of loan debt sizes and AGIs under the ICR plan. The first chart is for a single borrower who has a family size of one. The second chart is for a borrower who is married or a head of household and who has a family size of three. The calculations in Attachment 3 assume that the loan debt has an interest rate of 6 percent. For the married borrower, the calculations assume that the borrower files a joint Federal income tax return and that the borrower’s spouse does not have Federal student loans.

**Erie Boulevard Hydropower, L.P.;
Errata Notice and Notice of
Reasonable Period of Time for Water
Quality Certification Application**

On February 19, 2026, Federal Energy Regulatory Commission (Commission) staff issued a Notice of Waiver of Water Quality Certification (WQC) for the Schuylerville Hydroelectric Project No. 8606. The same day, the New York State Department of Environmental

Conservation (New York DEC) then notified the Commission that the project exemptee, Erie Boulevard Hydropower, L.P., had withdrawn their request for a WQC from processing on May 19, 2025. The exemptee had since filed a new WQC request with New York DEC on January 19, 2026. This errata notice withdraws the Commission's previous Notice of Waiver of WQC for the project, and acknowledges New York DEC's notice that it received a new request for a Clean Water Act section 401(a)(1) water quality certification as defined in 40 CFR 121.5, from Erie Boulevard Hydropower, L.P., on January 19, 2026. Pursuant to the Commission's regulations,¹ we hereby notify the New York DEC that their reasonable period of time to act on this certification request is January 19, 2027.

If the New York DEC fails or refuses to act on the water quality certification request on or before the above date, then the certifying authority is deemed waived pursuant to section 401(a)(1) of the Clean Water Act, 33 U.S.C. 1341(a)(1).
