

2023 through 2024, the DBB conducted the following studies:

- Supply Chain Illumination;
- Industry Partnerships for Crises;
- Communicating in Large

Organizations; Creating a Digital Ecosystem;

- A Review of Space Acquisition;
- Improving the Business Operations

Culture of the DoD;

- Building a Talent Pipeline;
- Recommendations to Improve IT User Experience within DoD; and
- Recommendations for the Next

Generation of Business Health Metrics.

From these studies, 114 of 130 recommendations have been adopted by the Department, a rate of 88 percent, which demonstrates the cost-effective value of the DBB.

7. *Explanation of why the committee/subcommittee is essential to the conduct of agency business:* The DBB provides the SECWAR and Deputy SECWAR with a unique peer-to-peer advisory capability that is not otherwise available to the SECWAR from within the Department. Unlike other internal DoW initiatives or static data repositories, the DBB leverages the diverse, executive-level, global business skills and experience to offer disruptive thinking on business culture and operational principles on the entire DoW enterprise. The DBB offers the vantage point of the practitioner bridging the gap between theoretical business models and successful implementation. In an era of rapid industrial change, the DBB provides direct access to the cognitive leadership of the private sector essential to ensuring the DoW remains a modern, effective, and lethal enterprise.
