Title of Collection: Stronger Connections Grant Program Annual Performance Report.

OMB Control Number: 1810–0788.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 3,051.

Total Estimated Number of Annual Burden Hours: 6,270.

Abstract: The Bipartisan Safer Communities Act (BSCA) provided \$1 billion in funding to State educational agencies (SEAs), to be distributed under Title IV, Part A of the Elementary and Secondary Education Act of 1965 (ESEA). The BSCA specified that SEAs must make competitive subgrants to high-need local educational agencies (LEAs), as determined by the SEA, for activities that support safe and healthy students under section 4108 of the ESEA. The U.S. Department of Education designated BSCA section 4108 funds as the Stronger Connections Grant (SCG) program.

This is a revised information-collection request for the SCG program's performance reporting requirement. Under the Education Department's General Administrative Regulations (EDGAR, Section 75.720), grantees must submit annual performance reports unless the Secretary allows less frequent reporting. Accordingly, this information collection request removes the annual reporting requirement and replaces it with a final report.

Additionally, this revised information collection request reduces the number of proposed data items to be collected from grantees in their final report. This change decreases reporting burden by 34,366 hours and ensures that SEA grantees provide only the critical

information needed, including: (1) the identification of the LEAs awarded SCG funds, and (2) how the SEA and its LEAs used SCG funds. This proposed information collection request balances reducing burden on grantees while collecting the essential information included in Attachment A for non-unitary systems and Attachment B for unitary systems.

Chief Data Officer, Office of Planning, Evaluation and Policy Development.

The Project consists of abandoning the Heard Storage Field, the Majorsville Shallow Storage Field, and the Majorsville Deep Storage Field, including all associated facilities and base gas, located in Marshall County, West Virginia and Greene and Washington Counties, Pennsylvania. Specifically, Columbia proposes to abandon 57 injection/withdrawal wells, 14 observation wells, the Majorsville Compressor Station, and all associated pipelines and aboveground appurtenances.
