

request a revision to and extension of approval of an information collection associated with the regulations to prevent the introduction or spread of foreign plant pests and diseases into or within the United States.

DATES: We will consider all comments that we receive on or before August 10, 2026.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2026–0760 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Please send one copy of your comment to Docket No. APHIS–2026–0760, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on foreign quarantine notices, contact Ms. Lydia Colón, Agriculturist, Senior Regulatory Policy Specialist, PPQ, APHIS, 5601 Sunnyside Ave., Beltsville, MD; (301) 851–2302; lydia.e.colon@usda.gov. For more detailed information on the information collection process, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2528 or email APHIS.PRA@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Foreign Quarantine Notices.

OMB Control Number: 0579–0049.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests and diseases into the United States or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA. Regulations governing the importation

of plants, fruits, vegetables, roots, bulbs, seeds, unmanufactured wood articles, and other plant products are contained in 7 CFR part 319, “Foreign Quarantine Notices.” Regulations governing the transit of certain products or articles that are classified as prohibited or restricted products or articles are contained in 7 CFR part 352, “Plant Quarantine Safeguard Regulations.”

The movement of plants and plant products requires various information collection activities, including operational workplans; audits; pest risk assessments; cooperative service agreements; and trust funds. Additional information collection activities include production or processing site/facility registrations; foreign site certification of inspection and/or treatment; applications for permits; appeals of denial or revocation of permits; requests for additional mailing labels; compliance agreements; phytosanitary certificates; labeling; importer documents; agreements for post entry quarantine State screening notices; 30-day article notifications; requests for emergency transshipment or division; notices of arrival; emergency action notifications; and monitoring/recordkeeping from entities responsible for growing, packing, handling, transporting, and importing foreign plant parts (roots, bulbs, seeds, fruit, leaves, etc.), plant products, timber, and timber products. In addition, APHIS collects required information from national plant protection organizations (NPPOs) as part of the commodity import approval process.

The information collected is vital to helping APHIS ensure that plants and plant products do not harbor plant pests or diseases that, if introduced into the United States, could cause extensive economic damage to U.S. agriculture.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years. APHIS has amended this information collection by reducing the number of business Respondents, which decreased Annual Responses and Total Burden Hours. In addition, APHIS has amended this information collection by removing PPQ Form 368, PPQ Form 519, PPQ Form 523 and PPQ Form 586 and moving these information collection activities to the new Common Form Information Collection.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper

performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.530 hours per response.

Respondents: Facilities; growers; producers; production, processing, and packing sites; importers; individuals; businesses; brokers; shippers; NPPOs; and foreign plant protection authorities.

Estimated annual number of respondents: 1,315.

Estimated annual number of responses per respondent: 205.

Estimated annual number of responses: 269,602.

Estimated total annual burden on respondents: 142,788 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 1st day of June 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2025–0410]

Notice of Proposed Revision to Requirements for the Importation of Fresh Pineapple (*Ananas comosus* (L.) From the Philippines and Thailand Into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public we have prepared risk assessments (PRAs)

and risk management documents (RMDs) relative to the importation of fresh pineapple (*Ananas comosus* (L.)) fruit from the Philippines and Thailand into the United States for consumption. Currently, fresh pineapple fruit from the Philippines is permitted into Guam, the Commonwealth of the Northern Mariana Islands, and the North Atlantic region of the United States. Pineapple fruit from Thailand is allowed importation into all of the United States (except Hawaii) ports of entry with an irradiation treatment. However, the national plant protection organizations of the Philippines and Thailand have asked APHIS for expanded authorization to import all varieties of fresh pineapple into all United States ports. Additionally, Thailand has requested authorization regarding the importation of fresh pineapple fruit without the irradiation treatment. APHIS has prepared PRAs that evaluate the plant pest and noxious weed risk associated with the importation of fresh pineapple fruit from the Philippines and Thailand into the United States, and RMDs that propose mitigations to address these risks. We are making the PRAs and RMDs available to the public for review and comment.

DATES: We will consider all comments that we receive on or before August 10, 2026.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2025–0410 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2025–0410, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Ms. Gina Stiltner, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, (518) 760–2468; gina.l.stiltner@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 of the regulations provides the requirements for authorizing the importation of fruits and vegetables into the United States, as well as revising existing requirements for the importation of fruits and vegetables. Paragraph (c) of that section provides that the name and origin of all fruits and vegetables authorized importation into the United States, as well as the requirements for their importation, are listed on the internet at <https://acir.aphis.usda.gov/s/>; this address provides access to the Agricultural Commodity Import Requirements database, or ACIR. It also provides that, if the Administrator of APHIS determines that any of the phytosanitary measures required for the importation of a particular fruit or vegetable are no longer necessary to reasonably mitigate the plant pest risk posed by the fruit or vegetable, APHIS will publish a notice in the **Federal Register** making its pest risk documentation and determination available for public comment.

Fresh pineapple fruit from the Philippines is currently listed in ACIR as authorized for importation into Guam, the Commonwealth of the Northern Mariana Islands, and the North Atlantic region of the United States. Fresh pineapple fruit from Thailand is currently listed in ACIR as authorized for importation into all of the United States (except Hawaii), subject to irradiation treatment. This requirement was first adopted in 2007 as a risk mitigation measure against *Coccus viridis*, *Dysmicoccus neobrevipes*, *Planococcus minor*, and *Frankliniella schultzei*.

The national plant protection organization (NPPO) of the Philippines requested APHIS authorize entry of fresh pineapple (*Ananas comosus* (L.)) into all ports of the United States. The NPPO of Thailand requested APHIS authorize importation of pineapples without irradiation treatment and into all United States ports, including Hawaii.

In response to these requests, APHIS prepared plant pest risk assessments that evaluate the plant pest and noxious

weed risks associated with importation of fresh pineapple from the Philippines and Thailand into the United States, as well as risk management documents (RMDs) that propose mitigation measures to address these risks.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our PRAs and RMDs for public review and comment. Those documents, as well as a description of the economic considerations associated with revising the conditions for the importation of fresh pineapple from the Philippines and Thailand, may be viewed on the *Regulations.gov* website or in our reading room (see **ADDRESSES** above for a link to *Regulations.gov* and information on the location and hours of the reading room). You may request paper copies of the PRAs and RMDs by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding whether to revise the requirements for the importation of fresh pineapple fruit from the Philippines and Thailand in a subsequent notice. If the overall conclusions of our analysis and the Administrator’s determination of risk remain unchanged following our consideration of the comments, then we will revise the requirements for the importation of fresh pineapple fruit from the Philippines and Thailand as specified in the RMDs. Depending on the comments received, we may elect to finalize one revision, while leaving the other unchanged.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 5th day of June 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.
