

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by July 10, 2026. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Agricultural Prices—
Substantive Change.

OMB Control Number: 0535–0003.

Summary of Collection: The U.S.

Department of Agriculture needs estimates of prices received by farmers and prices paid by farmers for production goods and services for the following purposes:

- computing Parity Prices in accordance with requirements of the Agricultural Adjustment Act of 1938 as amended;
- estimating value of production, inventory values, and cash receipts from farming;
- determining the level for farmer owned reserves;
- providing guidelines for Risk Management Agency price selection options;
- determining Federal disaster prices to be paid;
- input into agricultures contribution to the national income and product accounts (NIPA);
- use in agricultures contribution to national gross domestic product (GDP);
- establishing USDA's net farm income projections by the Economic Research Service; and
- determining the grazing fee on Federal lands.

General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204(a). This statute specifies that "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturalists."

The National Agricultural Statistics Service (NASS) is requesting a substantive change to the Agricultural Prices information collection request (OMB No. 0535–0003) to adjust the Prices Received data collections, to add collecting Annual Hay Prices. This survey will be conducted annually and has similar methodology to the other hay prices surveys already included in this request. There are no other changes to the survey methodology or procedures previously approved. There is an increase of 210 hours total burden hours as a result of this change.

Need and Use of the Information: The NASS price program computes annual U.S. weighted average prices received by farmers for wheat, barley, oats, corn, grain sorghum, rice, cotton, peanuts, pulse crops and oilseeds based on monthly marketing. Estimates of prices received are used by NASS to determine the value of agricultural production. Prices estimates are used by many Government agencies as a general measure of commodity price changes, economic analysis relating to farm income and alternative marketing policies, and for disaster and insurance payments. NASS estimates based on these surveys are used as a Principle Economic Indicator of the United States. These price estimates are also used to compute Parity Prices in accordance with requirements of the Agricultural Adjustment Act of 1938 as amended (Title III, Subtitle A, Section 301(a)).

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 40,500.

Frequency of Responses: Weekly; Monthly; Quarterly; Biennially; Annually.

Total Burden Hours: 25,415.

Levi S. Harrell,

*Departmental Information Collection
Clearance Officer.*

Animal and Plant Health Inspection Service

[Docket No. APHIS–2026–0531]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Table Eggs From Regions Where Newcastle Disease or Highly Pathogenic Avian Influenza Is Considered to Exist and Exportation of Poultry and Hatching Eggs

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to

request a revision to and extension of approval of an information collection associated with the regulations for the importation of table eggs from regions where Newcastle disease or highly pathogenic avian influenza is considered to exist and exportation of poultry and hatching eggs from the United States.

DATES: We will consider all comments that we receive on or before August 10, 2026.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS–2026–0531 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS–2026–0531, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations for the importation of table eggs, contact Dr. Lisa Dixon, Senior Staff Veterinarian, APHIS, VS, Strategy & Policy, Animal Product Import and Export, 5601 Sunnyside Ave., Beltsville, MD 20705; (301) 851–3373. For information on the regulations for exportation of poultry and hatching eggs, contact Dr. Andrea Pontel, APHIS, VS Field Operations, Veterinary ETS, 1111 Deming Way, Suite 100, Madison, WI 53717; (608) 215–9093. For information on the information collection reporting process, contact Ms. Sheniqua Harris, APHIS' Paperwork Reduction Act Coordinator, at (301) 851–2528 or email APHIS.PRA@usda.gov.

SUPPLEMENTARY INFORMATION: *Title:* Importation of Table Eggs From Regions Where Newcastle Disease or Highly Pathogenic Avian Influenza is Considered to Exist and Exportation of Poultry and Hatching Eggs.

OMB Control Number: 0579–0328.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (the Act, 7 U.S.C. 8301 *et seq.*), the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of livestock diseases and pests. To carry out this mission, APHIS regulates the importation of animals and animal products into the United States. In addition, under the Act, APHIS collects information and conducts inspections to ensure that poultry and hatching eggs exported from the United States are free of communicable diseases.

The regulations in 9 CFR 91.3 provide, among other things, the requirements for the export of poultry and hatching eggs from the United States to other countries. Certification that the poultry and hatching eggs are free of diseases is required. In addition, APHIS requires owners and exporters of poultry and hatching eggs to provide health and identification information via an export health certificate for poultry and hatching eggs.

The regulations contained in 9 CFR 94.6 govern the importation of carcasses, meat, parts or products of carcasses, and eggs (other than hatching eggs) of poultry, game birds, or other birds to prevent the introduction of Newcastle disease (ND) and highly pathogenic avian influenza (HPAI) into the United States. Various conditions for the importation of table eggs from regions where ND and HPAI exists, including Mexico, apply and involve information collection activities. APHIS also requires certain information for the importation of table eggs that includes a certificate for table eggs from ND and HPAI affected regions and a government seal issued by the veterinarian accredited by the national government who signed the certificate.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years. APHIS has amended this information collection by decreasing the number of Respondents; however, the number of Responses and Total Burden Hours reported have increased.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the

Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.501 hours per response.

Respondents: Owners of poultry and hatching egg operations, exporters, and national animal health authorities.

Estimated annual number of respondents: 161.

Estimated annual number of responses per respondent: 66.

Estimated annual number of responses: 10,547.

Estimated total annual burden on respondents: 5,280 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 4th day of June 2026.

Kelly Moore,

Administrator, Animal and Plant Health Inspection Service.
