Abstract of Information Available

A total of 10 trays of cultural items (approx. 588 objects) have been requested for repatriation. The 10 trays of unassociated funerary objects consist of stone artifacts (e.g., scrapers, choppers, core, hammerstone, projectile points, donut stone, anvil), bone artifacts (e.g., awl, wedge), shell (e.g., beads, ornaments, spangles), charcoal, debitage, flakes, soil, pigment, etc. These items were excavated from cemetery sites on Santa Rosa Island at Tecolote Point (SRI-3A and SRI-3B) by Phil Orr over several seasons of archaeological fieldwork between 1949 and 1958. Seven additional objects were collected on the surface at unknown dates. These include a projectile point, shell fragments, hammerstone, charcoal, a box of soil, etc.

Determinations

The Santa Barbara Museum of Natural History has determined that:

- The 10 trays of unassociated funerary objects described in this notice were reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been

identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a reasonable connection between the cultural items described in this notice and the Santa Ynez Band of Chumash Mission Indians of the Santa Ynez Reservation, California.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after July 13, 2026. If competing requests for repatriation are received, the Santa Barbara Museum of Natural History must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The Santa Barbara Museum of Natural History is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
