Discussion

The Coast Guard is making available the "Retrospective Analysis of USCG 2012 Ballast Water Discharge Standards," prepared by the Volpe National Transportation Systems Center. A copy of this report is available in the docket where indicated under the "Public Participation and Comments" section of this notice. In 2012, the Coast Guard issued a rule titled "Standards for Living Organisms in Ships' Ballast Water Discharged in U.S. Waters" (77 FR 17254, March 23, 2012) (2012 rule) to reduce the introduction and spread of non-indigenous species (NIS) via ballast water.

This retrospective analysis serves two primary purposes:

1. Update 2012 RIA Parameters: It updates key parameters used in the 2012 rule Regulatory Impact Analysis (RIA) using new data sources developed over the last decade, including the CABI Invasive Species Compendium, the Smithsonian's National Estuarine and Marine Exotic Species Information System (NEMESIS), and the National Ballast Information Clearinghouse (NBIC).

2. Reevaluate Costs and Benefits: It reevaluates the costs and benefits of the 2012 rule by leveraging historical data on Ballast Water Management System (BWMS) adoption and NIS establishment.

Key findings of the report indicate that the 2012 rule is likely to be net beneficial in the long term. While the analysis found that equipping the fleet with BWMS involved significant upfront costs, particularly for retrofitting, the annual benefits of avoided NIS accumulation are projected to grow and eventually surpass annual costs by the year 2050. This finding was robust to a variety of sensitivity cases.

We request your comments on the data, methodology, and findings presented in the Retrospective Analysis. We request comments on the estimated invasion rates, BWMS cost models, and the assumptions regarding fleet growth and retrofitting costs.

This notice is issued under authority of 5 U.S.C. 552, Executive Order 12866, and OMB Circular A-4.

Timothy M. Brown,

Chief, Office of Standards Evaluation and Development.

Federal Emergency Management Agency

[Docket ID FEMA-2026-0002; Internal Agency Docket No. FEMA-B-2610]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway

(hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The current effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Assistant Administrator, Federal Insurance Directorate, Resilience reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: David N. Bascom, Acting Director, Engineering and Modeling Division, Federal Insurance Directorate, Resilience, FEMA, 400 C Street SW, Washington, DC 20472, or (email) david.bascom@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map
