*Abstract:* Collecting plants in national parks is generally prohibited unless allowed by law, treaty rights, or exceptions under 36 CFR 2.1(c). Under 36 CFR part 2, members of federally recognized Tribes may gather plants for traditional, non-commercial purposes when their Tribe has an approved agreement with the National Park Service (NPS). These regulations support Tribal sovereignty and consistent NPS practices.

Under 36 CFR 2.6(f), the NPS and a Tribe may develop an agreement outlining how plant gathering will occur. A permit issued under 36 CFR 1.6 then authorizes specific activities. Only enrolled Tribal members with a long-standing historical connection to the park may gather plants, and the Tribe's connection must predate the park's establishment. Gathering must be sustainable and for traditional uses only.

This information collection includes:

- A Tribe's request to enter into a plant-gathering agreement.
- Information required to develop the agreement under 36 CFR 2.6(f).
- Documentation submitted if a Tribe appeals a denied request, such as evidence of historical connection, traditional practices, or potential resource impacts.

*Title of Collection:* Gathering of Certain Plants or Plant Parts by Federally Recognized Indian Tribes for Traditional Purposes.

*OMB Control Number:* 1024-0271.

*Form Number:* None.

*Type of Review:* Extension of a currently approved collection.

*Respondents/Affected Public:* Indian Tribes.

*Total Estimated Number of Annual Responses:* 30.

*Estimated Completion Time per Response:* Varies from 4 to 80 hrs. (times vary depending upon the activity).

*Total Estimated Number of Annual Burden Hours:* 530 hrs.

*Respondent's Obligation:* Required to obtain or retain a benefit.

*Frequency of Collection:* On occasion.

*Total Estimated Annual Non hour Burden Cost:* None.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), Indiana State University (ISU) has completed an inventory of human remains and associated funerary objects and has determined that there is a cultural affiliation between the human remains and associated funerary objects and Indian Tribes or Native Hawaiian organizations in this notice.

**DATES:** Repatriation of the human remains and associated funerary objects in this notice may occur on or after July 13, 2026.

**ADDRESSES:** Send written requests for repatriation of the human remains and associated funerary objects in this notice to Karla Hansen-Speer, Indiana State University, Earth and Environmental Systems Department, 600 N. Chestnut Street, Terre Haute, IN 47809, email [karla.hansen-speer@indstate.edu](mailto:karla.hansen-speer@indstate.edu).

**SUPPLEMENTARY INFORMATION:** This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of Indiana State University, and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

**Abstract of Information Available**

Human remains representing, at least, two individuals have been identified. The seven associated funerary objects are one fragmented copper kettle, one lot of wood or bark slivers, one lot snail shells, one lot of ring fragments, two

pendants, and one fine chain fragment. Two female individuals were removed from 12–T–1293 in Tippecanoe Co, IN. The burials were an accidental discovery and had eroded out of a riverbank. Staff at Indiana State University recovered the ancestors in 2012. Based on the funerary belongings including rings and a kettle, the time period is estimated to around 1790s. To our knowledge, no hazardous substances have been used to treat the human remains or funerary belongings.

**Cultural Affiliation**

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

**Determinations**

Indiana State Museum has determined that:

- The human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- The seven objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Absentee Shawnee Tribe of Indians of Oklahoma; Citizen Potawatomi Nation, Oklahoma; Eastern Shawnee Tribe of Oklahoma; Forest County Potawatomi Community, Wisconsin; Match-E-Be-Nash-She-Wish Band of Pottawatomi (previously listed as Match-E-Be-Nash-She-Wish Band of Pottawatomi Indians of Michigan); Miami Tribe of Oklahoma; Nottawaseppi Huron Band of the Potawatomi, Michigan; Peoria Tribe of Indians of Oklahoma; Pokagon Band of Potawatomi Indians, Michigan and Indiana; Prairie Band Potawatomi Nation; and the Shawnee Tribe.

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that

the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after July 2, 2026. If competing requests for repatriation are received, Indiana State University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. Indiana State University is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.
