**Abstract:** The Service is charged with implementing the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*). The goal of the Act is to provide a means to conserve the ecosystems upon which listed species depend and a program for listed species conservation. Through our Candidate Conservation program, we encourage the public to take conservation actions for species prior to them being listed under the Act. Doing so may result in precluding the need to list a species, may result in listing a species as threatened instead of endangered, or, if a species becomes listed, may provide the basis for its recovery and eventual removal from the protections of the Act.

This policy provides incentives to landowners, government agencies, and others to carry out voluntary conservation actions for unlisted species. It allows the use of any benefits to the species from voluntary

conservation actions undertaken prior to listing under the Act—by the person who undertook such actions or by third parties—to mitigate or offset the detrimental effects of other actions undertaken after listing. The policy requires participating States to track the voluntary conservation actions and provide this information to us on an annual basis. We require this information in order to provide the entities that have taken the conservation actions with proper credit that can later be used to mitigate for any detrimental actions they take after the species is listed.

We plan to collect the following information:

- Description of the prelisting conservation action being taken.
- Location of the action (does not include a specific address).
- Name of the entity taking the action and their contact information (email address only).
- Frequency of the action (ongoing for X years, or one-time implementation) and an indication if the action is included in a State Wildlife Action Plan.
- Any transfer to a third party of the mitigation or compensatory measure rights.

Each State that chooses to participate will collect this information from landowners, businesses and organizations, and Tribal, Federal, and

local governments that wish to receive credit for voluntary prelisting conservation actions. States may collect this information via an Access database, Excel spreadsheet, or other database of their choosing and submit the information to the Fish and Wildlife Service (via email) annually. States will use this information to calculate the number of credits that the entity taking the conservation action will receive and will keep track of the credits and notify the entity of how much credit they have earned. The States will report the number of credits to the Service, and we will determine how many credits are needed by the entity to mitigate or offset the detrimental effects of other actions they take after the species is listed (assuming it is listed).

**Title of Collection:** Policy Regarding Voluntary Prelisting Conservation Actions.

**OMB Control Number:** 1018–0177.

**Form Number:** None.

**Type of Review:** Extension of a currently approved collection.

**Respondents/Affected Public:** State governments.

**Respondent's Obligation:** Required to obtain or retain a benefit.

**Frequency of Collection:** On occasion for new submissions, ongoing for recordkeeping requirements, and annually for reporting requirements.

**Total Estimated Annual Nonhour Burden Cost:** None.

#### Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for Sand Skink; Lake County, FL; Categorical Exclusion

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; request for comments and information.

**SUMMARY:** We, the Fish and Wildlife Service (Service), announce receipt of an application from Lake County Development Partners, LLC (Casa del Rosa) (applicant) for an incidental take permit (ITP) under the Endangered Species Act (ESA). The applicant requests the ITP to take the federally listed threatened sand skink (*Neopseps*(=*Plestiodon*) *reynoldsi*) (skinks) incidental to the construction of a mixed multi-phase residential and commercial development and the associated clearing, infrastructure, and landscaping in Lake County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan, and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA), the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft screening form and NEPA statement for habitat conservation plans, which are available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

**DATES:** We must receive your written comments on or before July 13, 2026.

**SUPPLEMENTARY INFORMATION:** We, the U.S. Fish and Wildlife Service (Service), announce receipt of an application from Lake County Development Partners, LLC

(Casa del Rosa) (applicant) for incidental take permit (ITP) under the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed threatened sand skink (*Neopseps*(=*Plestiodon*) *reynoldsi*) incidental to the construction of a mixed multi-phase residential and commercial development and the associated clearing, infrastructure, and landscaping in Lake County, Florida.

We request public comment on the application, which includes the applicant's habitat conservation plans (HCP), and on the Service's preliminary determination that this proposed ITP may qualify for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), the Department of the Interior's (DOI) NEPA regulations (43 CFR part 46), and the DOI's Departmental Manual (DM; 516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft screening form and NEPA statement for HCPs, both of which are available for public review.

#### Proposed Project

The applicant requests a 10-year ITP to take skinks via the conversion of approximately 0.85 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a mixed multi-phase residential and commercial development on 69.25 ac, located 1 mile south of the intersection of Edwards Road and S. U.S. Highway 27 at latitude 28.890766 North and longitude -81.908939 West; within Section 28, Township 18 South, Range 24 East, Lady Lake, Lake County, Florida.

The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 1.7 ac of skink-occupied habitat within the Lake Wales Ridge Conservation Bank or another Service approved skink conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

#### Our Preliminary Determination

The Service has made a preliminary determination that reasonably foreseeable effects of the applicant's proposed project, including the construction of a mixed multi-phase residential and commercial development and the associated clearing, infrastructure, and landscaping, would have a minor effect on skinks and the human environment and that extraordinary circumstances in 43 CFR 46.215 do not apply. Reasonably foreseeable effects encompass effects of implementation of the action including
