NUCLEAR REGULATORY COMMISSION

[NRC–2026–2839]

Interim Staff Guidance: Security Requirements for Nonpower Production and Utilization Facility Applicants and Licensees

AGENCY: Nuclear Regulatory Commission.

ACTION: Final guidance; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing Interim Staff Guidance (ISG) DANU–ISG–2026–01, ''Security Requirements for Nonpower Production and Utilization Facility Applicants and Licensees.'' The purpose of this ISG is to clarify the required contents of a physical security plan for a non-power production or utilization facility (NPUF).

DATES: This guidance is effective on June 12, 2026.

ADDRESSES: Please refer to Docket ID NRC–2026–2839 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to *https://www.regulations.gov* and search for Docket ID NRC–2026–2839. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: *Bridget.Curran@nrc.gov.* For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *https://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''Begin ADAMS Public Search.'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to *PDR.Resource@nrc.gov.* The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.
- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Andrew Waugh, telephone: 301–415–0230; email: *Andrew.Waugh@nrc.gov* and Rebecca Ober, telephone: 301–287–9299; email: *Rebecca.Ober@nrc.gov.* Both are staff of the Office of Nuclear Reactor Regulation at the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

I. Background

As defined in section 50.2 of title 10 of the *Code of Federal Regulations* (10 CFR), ''Definitions,'' an NPUF ''means a production or utilization facility, licensed under 10 CFR 50.21(a) or (c), or 10 CFR 50.22, as applicable, that is not a nuclear power reactor or a production facility as defined under paragraphs (1) and (2) of the definition of Production facility in this section.'' In accordance with 10 CFR 73.67, the NRC requires applicable NPUFs licensed under 10 CFR part 50 to have security plans or procedures in place to detect, deter, assess, and respond to unauthorized activities. The NRC reviews and approves these plans before issuing an operating license.

II. Discussion

The purpose of this ISG is to clarify the required contents of a physical security plan for an NPUF. Physical security plans are a required part of an application for an operating license under 10 CFR part 50, ''Domestic Licensing of Production and Utilization Facilities.'' The staff of the NRC should use this guidance in reviews of applications for new NPUFs and any changes to the security programs of licensed NPUFs. Applicants and licensees may use this guidance to support the development of security programs that comply with NRC requirements.

III. Additional Information

DANU–ISG–2026–01 ''Security Requirements for Nonpower Production and Utilization Facility Applicants and Licensees,'' is being withheld from public release because it contains security-related information. Persons with a need to know, including NPUF licensees and persons who are applying or intend to apply for an NPUF license, can access the document through the NRC project manager assigned to the appropriate NPUF project. A publicly available redacted version of the document can be found in ADAMS (ML26140A323).

IV. Congressional Review Act

DANU–ISG–2026–01 ''Security Requirements for Nonpower Production and Utilization Facility Applicants and Licensees'' is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

V. Executive Order (E.O.) 12866

The Office of Information and Regulatory Affairs determined that this final ISG is not a significant regulatory action under E.O. 12866.

Authority: 42 U.S.C. 2011 *et seq.*

Dated: June 10, 2026.

For the Nuclear Regulatory Commission.

Michael Wentzel,

Chief, Advanced Reactor Policy Branch, Division of Advanced Reactors and Non-Power Production and Utilization Facilities, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105626; File No. SR–NYSEAMER–2026–47]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Adopt New Rule 5310 (Best Execution)

June 9, 2026.

Pursuant to Section 19(b)(1) [1] of the Securities Exchange Act of 1934 (''Act'') [2] and Rule 19b–4 thereunder,[3] notice is hereby given that, on May 29, 2026, NYSE American LLC (''NYSE American'' or the ''Exchange'') filed with the Securities and Exchange Commission (the ''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes a new Rule 5310 governing member organization's and persons associated with a member organization's best execution obligations based on Nasdaq PHLX Rule General 9, Section 11 and NYSE Rule 5310. The proposed rule change is available on the Exchange's website at *www.nyse.com* and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes a new Rule 5310 (Best Execution) that would govern member organization's and persons associated with a member organization's best execution obligations. Proposed Rule 5310 is based on Nasdaq PHLX Rule General 9, Section 11 (Best Execution and Interpositioning) and NYSE Rule 5310 (Best Execution). The purpose of the proposed rule is to enhance customer order protection by helping customers to receive efficient executions of their transactions at the best market prices.

Background and Proposed Rule Change

Nasdaq PHLX Rule General 9, Section 11, adopted in 2010, was based on NASD Rule 2320.[4] In 2011, the Financial Industry Regulatory Authority (''FINRA'') adopted NASD Rule 2320 as FINRA Rule 5310.[5] Thereafter, on January 5, 2026, the Exchange's affiliate, NYSE, adopted NYSE Rule 5310 based on the Nasdaq PHLX and FINRA rules.[6] These rules require broker-dealers to use ''reasonable diligence'' to ascertain the best market for a security and execute trades in such market so that the resultant price to the customer is as favorable as possible under prevailing market conditions. Other self-regulatory organizations have similar best execution rules.[7]

The Exchange proposes to adopt a new Rule 5310 that would govern the best execution obligations applicable to member organizations and persons associated with member organizations based on the Nasdaq PHLX, the NYSE and other self-regulatory organization rules.
