

extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP26–534–000 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below. Your motion to intervene must reference the Project docket number CP26–534–000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To file via any other courier: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Bret Fritch, Regulatory Specialist, Northern Natural Gas Company, P.O. Box 3330, Omaha, Nebraska 68103–0330 or by email (with a link to the document) at bret.fritch@nngco.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed⁹ motions to intervene are automatically granted by operation of Rule 214(c)(1).¹⁰ Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.¹¹ A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from OPP at (202) 502–6595 or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

Intervention Deadline: 5:00 p.m. Eastern Time on June 30, 2026.

(Authority: 18 CFR 2.1)

Dated: June 9, 2026.

Debbie-Anne A. Reese,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2100–184]

California Department of Water Resources; Notice of Availability and Adoption of Final Environmental Assessment

Pending before the Federal Energy Regulatory Commission (Commission) is an application filed by the California Department of Water Resources (licensee) for a non-capacity amendment for the Feather River Hydroelectric Project No. 2100. The licensee is proposing to make improvements to an existing recreation area, including a campground, day-use area, and boat launch, at the Oroville Wildlife Area adjacent to the Thermalito Afterbay.

In accordance with the National Environmental Policy Act of 1969 (NEPA), the Commission's regulations at 18 CFR part 380, Commission staff have decided to adopt the Environmental Assessment (EA) reviewed and by the U.S. Army Corps of Engineers (Corps) for the proposed work.¹ In determining whether to adopt the EA, Commission staff independently reviewed the EA. The actions analyzed by the Corps are essentially the same as those being proposed in the licensee's application, and therefore, Commission staff concludes that the EA adequately assesses the environmental impacts of the proposed action and can be adopted. Commission staff also agrees with the Corps' finding that the proposed work is not a major federal action significantly affecting the quality of the human environment.

The licensee is working in conjunction with its partner agency the Sutter Butte Flood Control Agency to construct recreation improvements at the existing Oroville Wildlife Area within the Feather River Hydroelectric Project's boundary adjacent to the Thermalito Afterbay outlet. The EA reviewed by the Corps titled "Final Environmental Assessment for the Oroville Wildlife Area Thermalito Recreation Improvements Project" can be viewed in the licensee's supplement filed in the Commission's eLibrary system on February 27, 2026, under docket P–2100 and is being reissued concurrent with this notice.

For public inquiries and assistance with making filings such as interventions, comments, or requests for

⁹ The applicant has 15 days from the submittal of a motion to intervene to file a written objection to the intervention.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[CP26-532-000; PF26-3-000]

Rio Grande LNG Train 6, LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on May 26, 2026, Rio Grande LNG Train 6, LLC (RGLNG Train 6), 1000 Louisiana Street, Suite 3300, Houston, Texas 77002, filed an application under section 3(a) of the Natural Gas Act (NGA) and Part 153 of the Commission's regulations requesting authorization for its Rio Grande LNG Expansion Project (Project). RGLNG Train 6 requests to add an additional liquefaction train, a new marine jetty and associated facilities at the Rio Grande LNG terminal in Cameron County, Texas, which was previously approved in Docket Nos. CP16-454-000 and CP24-70-000 and is currently under construction (Authorized RGLNG Terminal). The Project would add approximately 6.03 million tonnes per annum of LNG production capacity to the Authorized RGLNG Terminal, and increase the authorized LNG carrier vessels per year to 510, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>). From the Commission's Home Page on the internet, this information is available on eLibrary. The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field.

User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at (202) 502-6652 (toll free at 1-866-208-3676) or email at ferconlinesupport@ferc.gov, or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. Email the Public Reference Room at public.referenceroom@ferc.gov.

Any questions regarding the proposed project should be directed to Paul Nielson, Rio Grande LNG Train 6, LLC, 1000 Louisiana Street, Suite 3300, Houston, Texas 77002, by phone at (832) 900-4274, or by email at pnielson@next-decade.com.

On December 22, 2025, the Commission granted the Applicant's request to utilize the National Environmental Policy Act Pre-Filing Process and assigned Docket No. PF26-3-000 to staff activities involved in the Project. Now, as of the filing of the May 26, 2026 application, the Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP26-532-000 as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's Rules of Practice and Procedure,¹ within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

RGLNG Train 6 requests any waiver the Commission may deem necessary to accept this Application, including, but not limited to, limited waiver of the remainder of the pre filing process. Through the pre-filing process, staff has determined that the proposal does not involve significant state and local safety considerations that have not been previously addressed. The RGLNG Train 6 Project facilities, other than the

marine berth, would be within the previously developed or disturbed footprint of the Rio Grande LNG Terminal, within the previously evaluated storm surge and security enclosure being built to contain the already authorized facilities, and would be an extension of Rio Grande LNG Terminal facilities that utilize in-kind or upgraded pretreatment facilities, liquefaction facilities, marine facilities, and other facilities with in-kind or upgraded safety systems, security systems, and other systems recently authorized by the Commission and under construction. Therefore, we waive the requirement in 18 CFR 157.21(a)(2)(i) as part of this notice.

Water Quality Certification

RGLNG Train 6 stated that a water quality certificate under section 401 of the Clean Water Act is required for the project from the Railroad Commission of Texas. When available, RGLNG Train 6 should submit to the Commission a copy of the request for certification for the Commission authorization, including the date the request was submitted to the certifying agency, and either (1) a copy of the certifying agency's decision or (2) evidence of waiver of water quality certification.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file comments on the project, you can protest the filing, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on June 30, 2026. How to file protests, motions to intervene, and comments is explained below.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation (OPP) at (202) 502-6595 or OPP@ferc.gov.

Comments

Any person wishing to comment on the project may do so. Comments may include statements of support or objections, to the project as a whole or specific aspects of the project. The more specific your comments, the more useful they will be.

Protests

Pursuant to sections 157.10(a)(4)² and 385.211³ of the Commission's
