BILLING CODE 9110–04–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 26–113; DA 26–568; FR ID 350860]

Radio Broadcasting Services; Selmer, Tennessee

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document the Federal Communications Commission (Commission) requests comments on a proposal to amend the Table of FM Allotments, by deleting vacant Channel 288A at Selmer, Tennessee, because it does not comply with the minimum distance separation requirements of the Commission's rules. A staff engineering analysis determines that Channel 288A at Selmer, Tennessee is short-spaced to Station WVNA–FM by nine kilometers, and there are no alternate channels available to alleviate the existing spacing conflict that would comply with the Commission's spacing requirements. The proposed Selmer deletion is consistent with the Commission's policy that it will not retain a vacant FM channel that would not comply with the Commission's spacing requirements.
