[Docket No. IC26-34-000]

Commission Information Collection Activities (Ferc-606 and Ferc-607); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection renewal and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3506(c)(2)(A), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collections, FERC-606, (Notification of

Request for Federal Authorization and Requests for Further Information), and FERC-607, (Report on Decision or Action on Request for Federal Authorization). There are no proposed changes to the reporting requirements.

DATES: Comments on the collection of information are due August 17, 2026.

Please submit comments via email to DataClearance@FERC.gov. You must specify the Docket No. (IC26-34-000) and the FERC Information Collection number (FERC-606 and 607) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

☐ *Mail via U.S. Postal Service only, addressed to:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

☐ *Hand (including courier) delivery to:* Federal Energy Regulatory Commission, Secretary of the Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Docket: To view comments and issuances in this docket, please visit <https://elibrary.ferc.gov/eLibrary/search>.

FOR FURTHER INFORMATION CONTACT:

Kayla Williams may be reached by email at DataClearance@FERC.gov, or by telephone at (202) 502-6468.

SUPPLEMENTARY INFORMATION: *Title:* FERC-606, Notification of Request for Federal Authorization and Requests for Further Information; FERC-607, Report on Decision or Action on Request for Federal Authorization.

OMB Control No.: 1902-0241.

Type of Request: Three-year extension of these information collection requirements for all collections described below with no changes to the current reporting requirements.

Abstract: FERC-606 requires federal and state agencies and officials responsible for issuing, conditioning, or denying requests for federal authorizations necessary for a proposed natural gas project to report to the Commission regarding the status of an authorization request. This reporting requirement is intended to allow agencies to assist the Commission to make better informed decisions in establishing due dates for agencies' decisions.

FERC-607 requires federal and state agencies or officials to submit to the Commission a copy of a decision or action on a request for federal authorization and an accompanying index to the documents and materials relied on in reaching a conclusion.

These information collections can neither be discontinued nor collected

less frequently because of statutory ¹ and regulatory ² requirements. The consequences of not collecting this information are that the Commission would be unable to fulfill its statutory mandate under the Energy Policy Act of 2005 to:

- Establish a schedule for agencies to review requests for federal

authorizations required for a project, and

- Compile a record of each agency's decision, together with the record of the Commission's decision, to serve as a consolidated record for the purpose of appeal or review, including judicial review.

Type of Respondent: Agencies with federal authorization responsibilities.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden ³ and cost ⁴ (rounded) for the information collection as follows:

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden hours & cost per response	Total annual burden hours & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
FERC-606—Notification of Request for Federal Authorization and Requests for Further Information.	1	1	1	4 hrs.; \$408	4 hrs.; \$408	\$408
FERC-607—Report on Decision or Action on Request for Federal Authorization.	1	1	1	1 hr.; 102	1 hr.; 102	102
Total	2		2		5 hrs.; \$510	

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Deputy Secretary.

[Docket Nos. CP26-537-000; CP17-117-000]

Louisiana LNG Infrastructure LLC; Driftwood Pipeline LLC; Notice of Amendment Application and Motion To Vacate in Part Certificate Authorization and Establishing Intervention Deadline

Take notice that on June 1, 2026, Louisiana LNG Infrastructure LLC (Louisiana LNG), 1500 Post Oak, Houston, Texas 77056, filed an application under Section 3 of the Natural Gas Act (NGA) and Part 153 of the Commission's regulations to amend its Louisiana LNG Project (Project) issued in Docket No. CP17-117-000.¹ Specifically, Louisiana LNG requests Commission approval to amend the authorization granted in the 2019 Order to incorporate the Kinder Morgan Louisiana Pipeline LLC (KMLP) Interconnect into the Louisiana LNG facility authorized under Section 3(a) of the NGA rather than as part of the Driftwood Pipeline project as originally authorized. The amended authorization will allow the Project to connect directly to the KMLP pipeline, which will serve as a significant source of

supply for the Project, and to do so in a way that will permit natural gas to be delivered sooner than it is likely to be available from other supply sources. Concurrently, on June 1, 2026, Driftwood Pipeline LLC 2800 Post Oak Boulevard, Houston, Texas 77056 filed a motion to vacate, in part, its certificate authorization for the KMLP interconnect which it will no longer need as part of the Driftwood Pipeline Project, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
