* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION*India—Apache Helicopters Follow-on Support*

The Government of India has requested to buy the AH–64E Apache sustainment support services; U.S. Government and contractor engineering, technical, and logistics support services; technical data and publications; personnel training; and other related elements of logistics and program support. The estimated total cost is \$198.2 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the security of a major defense partner which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia regions.

The proposed sale will improve India's capability to meet current and future threats, strengthen its homeland defense, and deter regional threats. India will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Boeing Company, located in Arlington, VA; and Lockheed Martin, located in Orlando, FL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to India.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
