

for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the U.S. Network Enterprise Technology Command, 2133 Cushing Street, Fort Huachuca, AZ 85613; ATTN: Mr. Jay Lorenz, or call 254-630-9472.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Army Military Auxiliary Radio System (MARS) Application; Army MARS Form 1; OMB Control Number 0702-0140.

Needs and Uses: The Department of the Army collects information via Army MARS Form 1, "Application to Operate a MARS Station" (Form AM-1), to evaluate the eligibility of civilian applicants wishing to join the Army Military Auxiliary Radio System (MARS) in accordance with the qualifications established in Army Regulation 25-6. The collected information, which includes contact details and Federal Communications Commission (FCC) Amateur Radio Call-signs, is utilized by program managers to verify valid amateur radio licensing, process membership, and, when necessary, initiate background investigations for security clearances. Additionally, this geographic and licensing data is critical to demonstrate the geographic dispersion of radio network operators supporting the Department of War, ensuring that federal radio spectrum authorizations adequately cover all active operating locations. Approved member information is securely maintained in an administrative database to facilitate periodic program updates and annual contact verification.

Affected Public: Individuals or households.

Annual Burden Hours: 113.

Number of Respondents: 450.

Responses per Respondent: 1.

Annual Responses: 450.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

Dated: June 12, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Arms Sales Notification

AGENCY: Defense Security Cooperation Agency, Department of Defense (DoD).

ACTION: Arms sales notice.

SUMMARY: The DoD is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT:

Urooj Zahra at (703) 695-6233, urooj.zahra.civ@mail.mil, or dscn.ncr.rsrcmgmt.list.cns-mbx@mail.mil.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 26-0Y.

Dated: June 12, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 26-0Y

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Government of Germany

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 21-24

Date: March 12, 2021

Implementing Agency: Navy

(iii) *Description:* On March 12, 2021, Congress was notified by congressional certification transmittal number 21-24 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of the Government of Germany's request to buy five (5) P-8A Patrol Aircraft; nine (9) Multifunctional Distribution System Joint Tactical Radio Systems 5 (MIDS JTRS 5); and twelve (12) LN-251 with Embedded Global Positioning Systems (GPS)/Inertial Navigation Systems (EGIs). Also included were commercial engines; Tactical Open Mission Software (TOMS); Electro-Optical (E.O.) and Infrared MX-20HD; AN/AAQ-2(V) I Acoustic System; AN/APY-10 radar; ALQ-240 Electronic Support Measures;

NexGen Missile Warning Sensors; AN/PRC-117G Manpack radios include MPE-S type II with SAASM 3.7; Global Positioning Systems (GPS) 524D Precise Positioning System (PPS) for APY-10 Radar; AN/ALQ-213 Electronic Counter Measures; AN/ALE-47 Counter Measures Dispensing Systems; AN/UPX IFF Interrogators; APX-123A(C) IFF Digital Transponders; KIV-78 IFF Mode 5 Cryptographic Appliques; CCM-701A Cryptographic Core Modules; KY-100M, KY-58, KYV-5 for HF-121C radios; AN/PYQ-10 V3 Simple Key Loaders (SKL) with KOV-21 Cryptographic Appliques; aircraft spares; spare engine; support equipment; operational support systems; training; training devices; maintenance trainer/classrooms; publications; software; engineering technical assistance (ETA); logistics technical assistance (LTA); Country Liaison Officer (CLO) support; Contractor Engineering Technical Services (CETS); repair and return (RoR); transportation; aircraft ferry; and other associated training and support; and other related elements of logistics and program support. The total estimated program cost was \$1.77 billion. Major Defense Equipment (MDE) constituted \$1.10 billion of this total.

On April 1, 2022, Congress was notified by congressional certification transmittal number 0D-22 of the inclusion of the following MDE items: eight (8) Large Aircraft Infrared Countermeasures (LAIRCM) System Processor Replacements (each included eight (8) Exelis EGR GPS Receivers integrated with Selective Availability Anti-Spoofing Modules (SAASM); and seven (7) Guardian Laser Transmitter Assemblies (GLTA)). The following non-MDE items were also included: AN/ARC 210 RT-2036(C) radios; Control Interface Unit for the AN/AAQ 24(V)N; dual KIV-7Ms; CCM-700A cryptographic modules; KG-175 Encryptor Network Convergence Systems; Advanced Digital Antenna Production (ADAP) Antenna Electronics; and ADAP Controlled Reception Pattern Antenna antennas. The total value of these new items was \$13.5 million but did not cause an increase in the total estimated program cost, as pricing was factored in the initial notification. The total estimated program cost remained \$1.77 billion, with the total MDE cost remaining \$1.10 billion of total program cost.

On July 31, 2023, Congress was notified by congressional certification transmittal number 23-0M of the inclusion of three (3) P-8A Patrol Aircraft; six (6) MIDS JTRS 5; seven (7) LN-251 with EGIs; five (5) LAIRCM

System Processor Replacements (each includes five (5) Exelis EGR GPS Receivers integrated with SAASM; and four (4) GLTA). The following non-MDE items were also included: aircraft spare parts; spare engines; support equipment; operational support systems; training; training devices; software; ETA; LTA; RoR; transportation; aircraft ferry; and other related elements of engineering, logistics, and program management support. The addition of these items resulted in a net increase in MDE value of \$800 million, resulting in a revised MDE cost of \$1.9 billion. The total estimated case value increased to \$3.2 billion.

This transmittal reports the addition of the following MDE items: four (4) P-8A Patrol Aircraft; six (6) MIDS JTRS 5; eleven (11) LN-251 with EGIs; six (6) LAIRCM System Processor Replacements (each includes five (5) Exelis EGR GPS Receivers integrated with SAASM); and six (6) GLTA). The following non-MDE items will also be included: aircraft spare parts; spare engines; support equipment; operational support systems; training and training devices; software; ETA; logistics LTA; RoR; transportation; aircraft ferry; and other related elements of logistics and program support. The estimated total cost of the new items is \$3.7 billion. The estimated MDE value will increase by \$2.4 billion to a revised \$4.3 billion. The estimated non-MDE value will increase by \$1.3 billion to a revised \$2.6 billion. The estimated total case value will increase by \$3.7 billion to a revised \$6.9 billion. MDE constitutes \$4.3 billion of this total.

(iv) *Significance*: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Germany's capability to meet current and future threats by providing critical capabilities to coalition maritime operations and will increase interoperability between the United States and Germany.

(v) *Justification*: This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO Ally which is an important force for political and economic stability in Europe.

(vi) *Sensitivity of Technology*: The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress*: June 2, 2026

Transmittal No. 26-63

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser*: Government of Italy

(ii) *Total Estimated Value*:

Major Defense Equipment *	\$28.1 million
Other	\$ 2.5 million

TOTAL	\$30.6 million
-------------	----------------

Funding Source: National Funds

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase*:

Major Defense Equipment (MDE):

Three (3) Assault Amphibious Vehicles, Command Variant (AAVC-7A1)

Four (4) Assault Amphibious Vehicle, Recovery Variant (AAVR-7A1)

Non-MDE:

The following non-MDE items will also be included: support equipment; radar scattering camouflage netting kits; unclassified technical manuals; and other related elements of program and logistics support.

(iv) *Military Department*: Navy (IT-P-LHM)

(v) *Prior Related Cases, if any*: None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid*: None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold*: See Attached Annex

(viii) *Date Report Delivered to Congress*: June 4, 2026

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Italy—Assault Amphibious Vehicles

The Government of Italy has requested to buy three (3) Assault Amphibious Vehicles (AAVs), Command Variant (AAVC-7A1); and four (4) Assault Amphibious Vehicles, Recovery Variant (AAVR-7A1). The following non-MDE items will also be included: support equipment; radar-scattering camouflage netting kits; unclassified technical manuals; and other related elements of program and logistics support. The estimated total cost is \$30.6 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Italy's capability to meet current and future threats by modernizing and ensuring Italy's continued expeditionary capability to counter regional threats. Italy will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The AAVs will be transferred from United States Marine Corps stock. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Italy.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
