

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, located in Orlando, FL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Denmark.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM–158 Joint Air-to-Surface Standoff Missile with Extended Range (JASSM–ER) All Up Round is a low-observable, highly survivable, subsonic cruise missile designed to penetrate next-generation air defense systems enroute to target. The JASSM–ER is designed to kill hard, medium-hardened, soft, and area type targets. The extended range over the baseline was obtained by going from a turbo jet to a turbo-fan engine and by reconfiguring the fuel tanks for added capacity. Precise positioning is provided by either selective availability anti-spoofing module or M-Code.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Denmark can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been

authorized for release and export to the Government of Denmark.

POLICY JUSTIFICATION

New Zealand—MK 54 Torpedoes

The Government of New Zealand has requested to buy twenty (20) MK 54 MOD 0 Lightweight Torpedoes all up round. The following non-MDE items will also be included: storage and issue facilities; recoverable exercise torpedoes; air launch accessories; classified and unclassified torpedo spare parts; torpedo containers; torpedo support equipment including test equipment and tools; torpedo support services; unclassified books and other publications; other technical assistance including technical support, technical program management, infrastructure support, test equipment sustainment, exercise firing assistance, contract management, and initial follow-on technical support; in-country torpedo training; and other related elements of logistics and program support. The estimated cost is \$69 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a major ally that is a force for

political stability and economic progress in the Asia-Pacific region.

The proposed sale will improve New Zealand's capability to meet current and future warfare threats and provide greater security for its critical infrastructure. New Zealand will use the enhanced capability to strengthen its homeland defense. New Zealand will have no difficulty absorbing these capabilities into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no contractors associated with this sale. As there are no contractors associated with this sale, there will be no offset agreement.

Implementation of this proposed sale will not require the permanent assignment of any additional U.S. Government or contractor representatives to New Zealand.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 26–47

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The MK 54 MOD 0 Lightweight Torpedo all up round is a conventional torpedo that can be launched from surface ships, rotary and fixed wing aircraft. The MK 54 MOD 0 is an upgrade from the MK 46 Torpedo. The upgrade to the MK 54 MOD 0 entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank, and propulsion system from the MK 46 torpedo are re-used in the MK 54 MOD 0 configuration with minor modifications.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that New Zealand can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government.

This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to New Zealand.

POLICY JUSTIFICATION

India—Sustainment Support for M777A2 Ultra-Light Howitzers

The Government of India has requested to buy long-term sustainment support for M777A2 Ultra-Light Howitzers. The following non-major defense equipment items will be included: ancillary items; spares; repair and return; training; technical assistance; field service representative; depot capability; and other related elements of logistics and program support. The estimated total cost is \$230 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the security of a major defense partner which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia regions.

The proposed sale will improve India's capability to meet current and future threats, strengthen its homeland defense, and deter regional threats. India will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be BAE Systems, located in Cumbria, UK. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to India.
