

Transmittal No. 26–63

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Assault Amphibious Vehicle (AAV) is a fully tracked amphibious landing vehicle used to maneuver surface assault elements of the landing force. Its equipment from assault shipping during amphibious operations to inland objectives and to conduct mechanized operations and related combat support in subsequent operations ashore.

2. The AAVC–7A1 family of vehicles includes the Command Variant, which is an armored assault amphibious full-tracked landing vehicle. The vehicle provides a mobile task force communication center in amphibious operations from ship to shore through surf zone to inland objectives.

3. The AAVR–7A1 family of vehicles includes the Recovery Variant, which is an armored assault amphibious full-tracked vehicle. The vehicle is designed to recover vehicles and provide field support maintenance.

4. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

6. A determination has been made that Italy can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

7. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Italy.
