Agencies and Persons Consulted

On April 23, 2026, the NRC provided the draft EA to the State of South Dakota's Department of Agriculture and Natural Resources (SDDANR), the U.S. Bureau of Land Management (BLM), and the EPA for review and comment. SDDANR responded on May 22, 2026, with comments regarding the scope and status of the unique lands determination, large-scale mine permit, air quality permit, water appropriations permit, Groundwater Discharge Plan, waste management permit, and

wetlands permit. BLM provided comments on May 22, 2026, which provided clarifications regarding BLM's review of the Plan of Operations. The NRC staff addressed all these comments in the EA. The NRC and BLM also cooperated with each other on each agency's corresponding NEPA environmental review in accordance with the "Memorandum of Understanding between the Bureau of Land Management, Department of the Interior, and the Nuclear Regulatory Commission, an Independent Agency."

As part of the NRC's Section 106 process for the proposed renewal of the license for the Dewey-Burdock ISR project, the NRC staff consulted with the South Dakota State Historic Preservation Office, BLM, EPA, Powertech, 25 Federally recognized Tribes, and NDN Collective. BLM and EPA designated the NRC as the lead agency for compliance with requirements of Section 106 of the NHPA.

IV. Finding of No Significant Impact

In accordance with the requirements in 10 CFR part 51, the NRC staff has concluded that the proposed action will not significantly affect the quality of the human environment. Therefore, the NRC staff has determined, pursuant to 10 CFR 51.31, "Determinations based on environmental assessment," that preparation of an EIS is not required for the proposed action, and pursuant to 10 CFR 51.32, "Finding of no significant impact," a FONSI is appropriate. Consistent with 10 CFR 51.32(a)(4), this FONSI incorporates the EA set forth in this notice by reference.
