Wiscons8, LLC; Notice of Intent To Prepare an Environmental Assessment

On April 16, 2026, Wiscons8, LLC (exemptee) filed an application for surrender of exemption from licensing for the Manawa Dam Hydroelectric Project No. 9784. The project is located on the Little Wolf River in Waupaca County, Wisconsin. The project does not occupy federal lands.

The exemptee proposes to surrender its exemption from licensing because the Manawa Dam is no longer impounding water due to flood damage that occurred in the summer of 2024. The Manawa Dam is owned by the City of Manawa, Wisconsin, which terminated its lease with the exemptee in November 2025. The exemptee proposes to decommission the project by removing all equipment associated with hydropower generation. On April 21, 2026, the City of Manawa filed comments expressing support for the proposed surrender.

A Notice of Application for Surrender of Exemption Accepted for Filing and Soliciting Comments, Motions to

Intervene, and Protests was issued on May 1, 2026. No comments were filed pursuant to the notice.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by August 28, 2026. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or *OPP@ferc.gov*.

[Docket No. CP26-148-000]

Texas Eastern Transmission, LP; Notice of Schedule for the Preparation of An Environmental Assessment for the Longwall Mining Panel M2 and M3 Project

On March 23, 2026, Texas Eastern Transmission, LP (Texas Eastern) filed an application in Docket No. CP26-148-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to excavate, elevate, replace, reroute, construct, and operate certain natural gas pipeline facilities. The proposed project is known as the Longwall Mining Panel M2 and M3 Project (Project) and would allow for the safe and efficient operation of Texas Eastern's natural gas transportation system in Greene County, Pennsylvania during sub-surface longwall mining activities.

On May 12, 2026, the Federal Energy Regulatory Commission (Commission or

FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review

Issuance of EA: November 13, 2026.
*90-day Federal Authorization Decision Deadline:*² February 11, 2027.

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Texas Gas proposes to excavate, elevate, replace, and reroute segments of four existing pipelines ranging in length between approximately 5,000 feet and 6,100 feet near Graysville, Pennsylvania. Texas Eastern would also abandon by removal an approximately 5,000-foot segment of non-operational pipeline. Lastly, Texas Eastern proposes to modify existing minor aboveground facilities elsewhere in Greene County. Upon completion of the mining activities, Texas Eastern would return three of the four pipelines to their original locations and easements. The fourth pipeline would be rerouted into the abandoned easement. Texas Eastern anticipates these activities would occur between 2027 and 2029.

Background

On May 12, 2026, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Carnation Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected

officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202)502-6595 or OPP@ferc.gov.

Additional information about the Project is available from the FERC website (www.ferc.gov). Using the “eLibrary” link, select “General Search” from the eLibrary menu, enter the selected date range and “Docket Number” excluding the last three digits (*i.e.*, CP26-016), and follow the instructions.
