DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP26–127–000]

Gulf South Pipeline Company, LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the Petal Cavern Expansion Project

On February 27, 2026, Gulf South Pipeline Company, LLC (Gulf South) filed an application in Docket No. CP26–127–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) and 7(e) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations to construct, own, operate, and maintain a new natural gas storage salt dome cavern, two brine disposal wells, brine and freshwater lines, natural gas pipeline connecting the new cavern to existing headers, and an intercompany check meter at Gulf South's existing Petal Gas Storage Field known as the Petal Cavern Expansion Project (Project) in Forrest County, Mississippi.

On March 12, 2026, the Federal Energy Regulatory Commission (Commission or FERC issued its Notice of Application for the Project. Among

other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review

Issuance of EA: October 23, 2026.

90-day Federal Authorization

*Decision Deadline:*² January 21, 2027.

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Project consists of the development of a new salt dome storage cavern with a total capacity of 16 billion cubic feet (Bcf), including 10.0 Bcf of working gas and 6.0 Bcf of cushion gas, increasing overall Petal Gas Storage Field (or Petal Storage Field) capacity. All Project activities will be located within the existing Petal Storage Field in Forrest County, Mississippi.

Background

On April 29, 2026, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Petal Cavern Expansion Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. On May 13, 2026, the Choctaw Nation of Oklahoma, Historic Preservation commented that they have reviewed the associated cultural resources assessment and additional information and concur with the finding of “no historic properties affected”.

¹ For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is EAXX–019–20–000–1777896638.

² The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

All substantive comments received will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202)502-6595 or *OPP@ferc.gov*.

Additional information about the Project is available from the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP26-127-000), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at *FERCOnlineSupport@ferc.gov*. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2512-089]

Hawks Nest Hydro, LLC; Notice of Intent To Prepare an Environmental Assessment

On March 5, 2026, and supplemented on March 25, 2026, Hawks Nest Hydro, LLC, filed an application for a non-capacity amendment of license for the Hawks Nest Project No. 2512. The project is located on the New River in Fayette County, West Virginia. The project does not occupy any federal lands.

The licensee proposes to convert energy generation and transmission from a frequency of 25 hertz (Hz) to 60

Hz, to allow for the sale of power directly to the regional electric grid. Under the proposal, the licensee would: (1) replace the Unit 1 and Unit 2 turbines and generators, (2) construct a new switchyard near the existing powerhouse, (3) upgrade one of the existing primary transmission lines and abandon the other in place, (4) construct a new access road near the existing powerhouse, (5) install a new prefabricated metal building near the existing powerhouse and substation, (6) upgrade ancillary equipment. The replacement of Units 1 and 2 would increase the project's authorized installed capacity from 102 megawatts (MW) to 108.5 MW and increase the maximum hydraulic capacity from 10,160 cubic feet per second (cfs) to 10,380 cfs. During powerhouse outages associated with the licensee's proposal, all flows would be spilled into the bypassed reach and the licensee's ability to provide recreational flow releases would be dependent on project inflows. The licensee would continue to operate the project in run-of-river mode during and following construction. Following construction, the licensee would increase the minimum flows in the bypassed reach and increase the number of recreational flow releases while shortening the duration of each recreational flow release.

On March 17, 2026, Commission staff issued public notice of the application and established a deadline for filing comments, motions to intervene, and protests by April 16, 2026. American Whitewater filed a motion to intervene and comments on April 2, 2026, and two individuals filed comments on April 16, 2026.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) for the project.¹ Commission staff plans to issue an EA by October 30, 2026. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, contact the Office of Public Participation at (202) 502-6595 or *OPP@ferc.gov*.

Any questions regarding this notice may be directed to Chris Chaney at (202)

502-6778 or *christopher.chaney@ferc.gov*.
