[Docket No. CP26–75–000]

Texas Eastern Transmission, L.P.; Notice of Revised Schedule for Environmental Review of the Line 31 Expansion Project

This notice identifies the Federal Energy Regulatory Commission staff's revised schedule for the completion of the environmental assessment (EA) for Texas Eastern Transmission, L.P.'s (Texas Eastern) Line 31 Expansion Project.¹ The first notice of schedule, issued on April 6, 2026, identified June 15, 2026 as the EA issuance date. However, following a series of staff data requests, and filings dated March 12, 2026 and May 11, 2026, Texas Eastern anticipates filing a response regarding the project's operational emissions by June 30, 2026. Staff will require additional time to incorporate the pending information into the EA and to determine if we can reach a finding of no significant impact in the EA. As a result, staff has revised the schedule for issuance of the EA. The issuance date is also contingent on the quality of information provided by Texas Eastern. The EA will be issued for a 30-day comment period.

Schedule for Environmental Review

Issuance of the EA: July 24, 2026.
*90-day Federal Authorization
 Decision Deadline:*² October 22, 2026.

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

Lyonsdale Associates, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Lyonsdale Hydroelectric Project No. 3255 (project). The project is located on the Moose River in Lewis County, New York. Commission staff has prepared an
