

documents for TBBPA are part of the SACC peer review, the final Risk Evaluation for TBBPA is also available in docket ID number EPA-HQ-OPPT-2018-0462 at <https://www.regulations.gov>.

IV. Next Steps

After the peer review meeting, the SACC will prepare the meeting minutes and final report document summarizing its recommendations to the EPA, which will also be available in the docket and through the SACC website. EPA will consider the SACC recommendations and public comments to complete the risk evaluations and unreasonable risk determinations under TSCA for these chemical substances. Under TSCA, EPA must then initiate risk management actions to address the unreasonable risk if identified.

Authority: 15 U.S.C. 2625(o); 5 U.S.C. 10.

Dated: June 16, 2026

Douglas M. Troutman,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2011-0442-0002; FRL-13356-01-OW]

Agency Information Collection Activities; Proposed Information Collection Request; Comment Request; Microbial Rules (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), Microbial Rules (Renewal) (EPA ICR Number 1895.12, OMB Control Number 2040-0205) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through October 30, 2026. This notice allows for 60 days for public comments.

DATES: Comments must be submitted on or before August 21, 2026.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2011-0442-0002, to EPA online using www.regulations.gov (our

preferred method), by email to OW-Docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Brooke Holmes, Capacity and Compliance Assistance Division, Office of Ground Water and Drinking Water, 4606M, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-564-2508; email address: holmes.brooke@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through October 30, 2026. An agency may not conduct, or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. This notice allows 60 days for public comments.

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate forms of information technology.

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The Microbial Rules Renewal ICR examines public water system and primacy agency burden and costs for recordkeeping and reporting requirements in support of the microbial drinking water regulations. These recordkeeping and reporting requirements are mandatory for compliance with 40 CFR parts 141 and 142.

The following microbial regulations are included under the ICR: the Surface Water Treatment Rule, the Total Coliform Rule, the Revised Total Coliform Rule, the Interim Enhanced Surface Water Treatment Rule, the Filter Backwash Recycling Rule, the Long Term 1 Enhanced Surface Water Treatment Rule, the Long Term 2 Enhanced Surface Water Treatment Rule, the Ground Water Rule, and the Aircraft Drinking Water Rule. Future microbial-related rulemakings will be added to this consolidated ICR after the regulations are promulgated and the initial, rule-specific, ICRs are due to expire.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are public water systems and primacy agencies.

Respondent's obligation to respond: Mandatory for compliance with 40 CFR parts 141 and 142.

Estimated number of respondents: 144,273 (total).

Frequency of response: Varies by requirement (*i.e.*, on occasion, monthly, quarterly, semi-annually, and annually).

Total estimated burden: 15,020,711 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$1,378,226,000 (per year), which includes \$174,800,000 annualized capital or operation and maintenance costs.

Changes in the Estimates: EPA will evaluate burden calculations compared to what was identified in the ICR currently approved by OMB. In May 2026, EPA identified two typographical errors in the 2022 ICR: the "Short Characterization" and "Bottom Line Burden Hours and Costs" sections incorrectly list the estimated cost as

\$1.378 trillion, rather than the correct estimated cost \$1.378 billion.

Jennifer L. McLain,

Director, Office of Ground Water and Drinking Water.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Radionuclides (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Radionuclides (EPA ICR Number 1100.18, OMB Control Number 2060–0191) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through June 30, 2026. Public comments were previously requested via the **Federal Register** on November 25, 2025 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before July 22, 2026.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2003–0085, to EPA online using www.regulations.gov (our preferred method), by email to [*a-and-r-Docket@epa.gov*], or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information

collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Joseph Rustick, Radiation Protection Division, Office of Radiation and Indoor Air, Mail Code 6608T, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–564–9682; fax number: 202–343–2304; email address: rustick.joseph@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through June 30, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on November 24, 2025 during a 60-day comment period (90 FR 52952). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: On December 15, 1989, pursuant to Section 112 of the Clean Air Act as amended in 1977 (42 U.S.C. 1857), the Environmental Protection Agency (EPA) promulgated National Emission Standards for Hazardous Air Pollutants (NESHAP) regulations to control radionuclide emissions from several source categories. The regulations are codified at 40 CFR part 61. Of the eight subparts (B, H, I, K, Q, R, T and W) included in the 1989 rule, as currently amended, four apply to privately-operated facilities. In addition to requiring operational practices that limit emissions, subparts B, K, R, and W impose radionuclide dose and/or emission limits, respectively, to underground uranium mines, elemental phosphorous plants, phosphogypsum stacks, and uranium mill tailings impoundments. Facilities must inspect impoundments, measure radionuclide emissions, perform analyses or calculations per EPA procedures, and report the results to the EPA.

Form Numbers: None.

Respondents/Affected Entities: The North American Industry Classification

System (NAICS) codes of facilities associated with the activity of the respondents are: (1) Elemental Phosphorous 325180, (2) Phosphogypsum Stacks 212390, (3) Underground Uranium Mines 212290, and (4) Uranium Mill Tailings 212290.

Respondent's Obligation To Respond: Mandatory (40 CFR part 61).

Estimated Number of Respondents: 52 (total).

Frequency of Response: Monthly, annual, or one-time depending on the source category and respondent activity.

Total Estimated Burden: 11,301 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total Estimated Cost: \$1,412,827 (per year), which includes \$408,300 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is increase of 7,155 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to additional subpart B and subpart W facilities potentially coming online by 2029. In the case of subpart B, based on information gathered for this ICR renewal, the Agency identified up to 14 respondents that are likely to submit annual reports by 2029, which would be an increase of 12 facilities from the previous ICR. The additional responses for subpart B will lead to increases of 2,760 burden hours and \$63,600 in non-labor cost. In the case of subpart W, there is the potential for an additional 15 non-conventional impoundments to be constructed and operated. This is estimated to produce an additional 4,395 burden hours and \$5,700 in non-labor costs. For subparts K and R, there were no changes to the number of respondents, the annual time burden, or the annual non-labor cost compared to the most recent renewals of this ICR.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.
