SUPPLEMENTARY INFORMATION: This is proposed extension of the ICR, which is currently approved through June 30, 2026. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on November 18, 2025 during a 60-day comment period (90 FR 51746). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR estimates the recordkeeping and third-party response burden of paperwork activities that covers the information collection requirements contained in the Worker Protection Standard (WPS) regulations at 40 CFR part 170. Agricultural employers and commercial pesticide handling establishments (CPHEs) are responsible for providing required training, notifications and information to their employees to ensure worker and handler safety. The WPS regulations have provisions for training and notification of pesticide-related information for workers who enter pesticide-treated areas after pesticide application to perform crop-related tasks, as well as for handlers who mix, load, and apply pesticides. Agricultural employers and CPHEs are responsible

for providing required training, notifications, and information to their employees to ensure worker and handler safety. The WPS regulation includes content and annual training requirements for workers and handlers, improved posting of pesticide-treated areas, additional information for workers before they enter a pesticide-treated area while a restricted entry interval (REI) is in effect. Furthermore, it covers access to more general and application-specific information about pesticides used on the establishment, and recordkeeping of training and application/hazard information to improve enforceability and compliance.

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Form Number(s): None.

Respondents/Affected Entities: Entities potentially affected by this ICR include employers of agricultural establishments, including employers in farms, nursery, forestry, and greenhouse establishments. North American Industrial Classification System (NAICS) codes identified in question 12 of the ICR.

Respondent's Obligation To Respond: Mandatory, as per 40 CFR 170.

Estimated Number of Respondents: 10,840,082 (total).

Frequency of Response: On occasion.

Total Estimated Burden: 10,137,696 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total Estimated Cost: \$446,339,743 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 50,974 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to adjustments to the estimated number of respondents; the activities and the per response burden in this ICR have remained the same. This change is an adjustment.

Courtney Kerwin,

Deputy Director, Data and Enterprise Programs Division.
