

investment in the American economy” as provided in Executive Order (E.O.) 13577, “SelectUSA Initiative” (June 15, 2011). This notice also supports E.O. 14255, “Establishing the United States Investment Accelerator” (March 31, 2025), aimed at facilitating and accelerating investments above \$1 billion in the United States. In carrying out these objectives, ITA may collect fees from those seeking ITA services, including U.S. economic development organizations that seek to promote their locality to foreign investors.

Paperwork Reduction Act Notification

All comments and details provided by individuals responding to this notice are subject to the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501, *et seq.*). A Federal agency may not conduct or sponsor, and a person is not required to respond, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the PRA unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for the information collection associated with this effort is 0625–0143. Without this approval, ITA could not conduct this information collection. Public reporting for this information collection is estimated to be approximately 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to ITA’s PRA Program: pra@trade.gov.

Carlos Ortiz,
Office of Strategy and Engagement, Global Markets, International Trade Administration.

Certain Activated Carbon From the People’s Republic of China: Amended Final Results of Antidumping Duty Administrative Review; 2023–2024; Correction

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

ACTION: Notice; correction.

SUMMARY: The U.S. Department of Commerce (Commerce) published notice in the **Federal Register** of June 2, 2026, in which Commerce announced the amended final results of the 2023–2024 antidumping duty administrative review on certain activated carbon from the People’s Republic of China (China). This notice incorrectly listed several companies as being non-selected companies under review receiving a separate rate in the Appendix that should not have been included, and also inadvertently omitted one company that should have been included.

FOR FURTHER INFORMATION CONTACT: Andrew Hart, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1058.

SUPPLEMENTARY INFORMATION:

Background

On June 2, 2026, Commerce published in the **Federal Register** *Certain Activated Carbon from the People’s Republic of China: Amended Final Results of Antidumping Duty Administrative Review; 2023–2024*.¹ We incorrectly listed several companies as being non-selected companies under review receiving a separate rate in the Appendix that should not have been included, and also inadvertently omitted one company (Beijing Pacific Activated Carbon Products Co., Ltd.) that should have been included.

Correction

In the **Federal Register** of June 2, 2026, in FR Doc 2026–10940, on page 32937, in the second column, correct the Appendix to include only the following Non-Selected Companies Under Review Receiving a Separate Rate: (1) Beijing Pacific Activated Carbon Products Co., Ltd.; (2) Bengbu Modern Environmental Co. Ltd.; (3) Carbon Activated Tianjin Co., Ltd.; (4) Ningxia Mineral & Chemical Limited; (5) Shanxi Industry Technology Trading Co., Ltd.; (6) Shanxi Sincere Industrial Co., Ltd.; and (7) Tancarb Activated Carbon Co., Ltd.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h)(2) and 351.221(b)(5).

¹ See *Certain Activated Carbon from the People’s Republic of China: Amended Final Results of Antidumping Duty Administrative Review; 2023–2024*, 91 FR 32935 (June 02, 2026).

Dated: June 16, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to the Coeur Alaska, Inc.’s Kensington Dock Repair Project in Berners Bay, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of incidental harassment authorization.

SUMMARY: In accordance with regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to Coeur Alaska, Inc. (Coeur) for authorization to take marine mammals incidental to the Kensington Dock Repair Project in Berners Bay, Alaska.

DATES: This authorization is effective for 1 year from the date of notification by the IHA-holder, not to exceed 1 year from the date of issuance (June 16, 2026).

ADDRESSES: Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, can be obtained online at: <https://www.fisheries.noaa.gov/action/incidental-take-authorization-kensington-dock-repair-project-berners-bay-alaska>. For any issues accessing these documents, please contact the person listed below.

FOR FURTHER INFORMATION CONTACT: Krista Graham, Office of Protected Resources, NMFS, (301) 427–8401.

SUPPLEMENTARY INFORMATION:

MMPA Background and Determinations

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Among the exceptions is section 101(a)(5)(D) of the MMPA (16 U.S.C. 1361 *et seq.*), which directs the Secretary of Commerce (as delegated to

NMFS) to allow, upon request, the incidental, but not intentional, taking by harassment of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made, and the public has an opportunity to comment on the proposed IHA.

Specifically, NMFS shall issue an IHA if it determines that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where applicable). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least [practicable] adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stocks for taking for certain subsistence uses (referred to here as “mitigation”). NMFS must also prescribe requirements for monitoring and reporting of such takings. The definitions of key terms, such as “take,” “harassment,” and “negligible impact,” are found in the MMPA and NMFS’ implementing regulations (see 16 U.S.C. 1362; 50 CFR 216.103).

On April 29, 2026, a notice of NMFS’ proposal to issue an IHA to Coeur for take of marine mammals incidental to the Kensington Dock Repair Project in Berners Bay, Alaska, was published in the **Federal Register** (91 FR 23065). In that notice, NMFS provided estimates of the numbers, types, and methods of incidental take proposed for each species or stock, as well as the mitigation, monitoring, and reporting measures that would be required should the IHA be issued. The **Federal Register** notice also included an analysis to support NMFS’ preliminary conclusions and determinations that the IHA, if issued, would satisfy the requirements of section 101(a)(5)(D) of the MMPA for issuance of the IHA. The **Federal Register** notice included web links to a draft IHA for review, along with other supporting documents.

Two comment letters from Coeur were received during the public comment period, both supporting the issuance of the IHA. Additionally, no new information has become available that would substantively change any of the preliminary analyses, conclusions, or determinations in the proposed IHA. Therefore, the preliminary analyses, conclusions, and determinations

included in the proposed IHA are considered final.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216–6A, NMFS must review our proposed action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NAO 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment, and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that issuance of the IHA qualifies to be categorically excluded from further NEPA review.

Endangered Species Act

Section 7(a)(2) of the ESA of 1973 (16 U.S.C. 1531 *et seq.*) requires each Federal agency to ensure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take of endangered or threatened species, in this case, with NMFS’ Alaska Regional Office.

NMFS is authorizing incidental take of the humpback whale (*i.e.*, the Mexico distinct population segment (DPS) (Mexico–North Pacific stock), ESA-listed as threatened and the Western North Pacific DPS (Western North Pacific stock), ESA-listed as endangered) and the Steller sea lion (*i.e.*, Western DPS (Western stock), ESA-listed as endangered).

Authorization

Accordingly, consistent with the requirements of section 101(a)(5)(D) of the MMPA, NMFS has issued an IHA to Coeur for authorization to take marine mammals incidental to the Kensington Dock Repair Project in Berners Bay, Alaska.

Dated: June 16, 2026.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

[RTID 0648–XF785]

Notification of Comparability Findings for Suriname Under the Import Provisions of the Marine Mammal Protection Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; publication of comparability finding determinations.

DATES: This comparability finding is valid and in effect from June 22, 2026 through December 31, 2029, or for such other period as NMFS may specify.

FOR FURTHER INFORMATION CONTACT: Michael Abbey, Office of International Affairs, Trade, and Commerce, NMFS, (301) 427–8019, mmmpa.loff@noaa.gov.

SUPPLEMENTARY INFORMATION: The Marine Mammal Protection Act (MMPA) precludes the import into the United States of fish and fish products taken in foreign commercial fisheries that cause serious injury and mortality of marine mammals in excess of U.S. standards. Regulations issued to implement the MMPA import provisions require exporting nations to receive a finding that they maintain a regulatory program with respect to incidental mortality and serious injury of marine mammals in the course of commercial fishing operations that includes, or effectively achieves, results comparable to the U.S. program.

On September 2, 2025, NMFS announced its 2025 Marine Mammal Protection Act comparability finding determinations in the **Federal Register** (90 FR 42395) and posted the determinations on its website. Nations whose fisheries were denied comparability findings were prohibited from importing fish and fish products from those fisheries into the United States beginning January 1, 2026. Nations may reapply for a comparability finding for the affected fisheries at any time.

Suriname was denied a comparability finding for one of its fisheries, and has reapplied for a comparability finding for
