

IV. Discussion of Comments

FMCSA received no comments in this proceeding.

V. Basis for Exemption Determination

The Agency conducted an individualized assessment of each applicant's medical information, including the root cause of the respective seizure(s) and medical information about the applicant's seizure history, the length of time that has elapsed since the individual's last seizure, the stability of each individual's treatment regimen, and the duration of time on or off of anti-seizure medication. In addition, the Agency reviewed the treating clinician's medical opinion related to the ability of the driver to safely operate a CMV with a seizure history and each applicant's certified driving record from their State Driver Licensing Agency (SDLA). The information obtained from each applicant's driving record provides the Agency with details regarding any moving violations or reported crash data, which demonstrates whether the driver has a safe driving history and is an indicator of future driving performance. If the driving record revealed a crash, FMCSA requested and reviewed the related police reports and other relevant documents, such as the citation and conviction information. A summary of each applicant's seizure history was discussed in the December 19, 2025 **Federal Register** notice (90 FR 59636) and will not be repeated in this notice.³

VI. Conclusion

Based upon its evaluation of the 52 exemption applications, FMCSA determined that these applicants do not satisfy the eligibility criteria or meet the terms and conditions of the Federal exemption and granting these exemptions would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with 49 CFR 391.41(b)(8). Therefore, the 52 applicants in this notice have been denied exemptions from the physical qualification standards in 49 CFR 391.41(b)(8).

Each applicant has, prior to this notice, received a letter of final

disposition regarding his or her exemption request. Those decision letters fully outlined the basis for the denial and constitute final action by the Agency. This notice summarizes the Agency's recent denials as required under 49 U.S.C. 31315(b)(6)(C) by publishing names and reasons for denial.

The following 52 applicants do not meet the minimum time requirement for being seizure-free, either on or off anti-seizure medication:

DEPARTMENT OF TRANSPORTATION

Bureau of Transportation Statistics

[DOT-OST-2026-1387]

Request for Information: Shaping the Future of the Bureau of Transportation Statistics; Extension of Comment Period

AGENCY: Bureau of Transportation Statistics (BTS), Office of the Assistant Secretary for Research and Technology (OST-R), U.S. Department of Transportation (DOT).

ACTION: Notice; extension of comment period.

SUMMARY: This notice extends the public comment period for the Request for Information (RFI) titled, "Shaping the Future of the Bureau of Transportation Statistics (BTS)," which was published in the **Federal Register** on June 1, 2026 (91 FR 32508). BTS is taking this action in response to requests from the public to allow interested parties additional time to review the notice and prepare meaningful comments. The original comment period was scheduled to close on July 2, 2026. BTS has determined that an extension of the comment period until July 31, 2026 is appropriate.

DATES: The comment period for the notice published on June 1, 2026 (91 FR 32508) is extended. Comments must be received on or before July 31, 2026.

ADDRESSES: Follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of June 1, 2026 (91 FR 32508).

FOR FURTHER INFORMATION CONTACT: Edward Strocko, U.S. Department of Transportation, Bureau of Transportation Statistics, 1200 New Jersey Ave. SE, Washington, DC 20590. Telephone: (202) 366-3282. Email: BTSSOutreach@dot.gov.

SUPPLEMENTARY INFORMATION: On June 1, 2026, BTS published a Request for Information (RFI) in the **Federal Register** (91 FR 32508) seeking public input to evaluate the utility of its product portfolio, identify critical data gaps in the national transportation picture, and improve the user experience for all stakeholders. The original notice requested that comments be submitted on or before July 2, 2026. BTS has received several requests to extend the comment period. An extension of the comment period will allow interested parties additional time to provide robust and meaningful comments. Therefore, BTS is extending the end of the comment period for the RFI from July 2, 2026, to July 31, 2026.

³ FMCSA has thoroughly reviewed all applications and provided applicants in this notice accurate reasoning for the denial of their exemption request. However, in the **Federal Register** notice (90 FR 59636), it incorrectly states in the applicant summaries that Michael Rice and Christopher Robb have been on anti-seizure medication with the dosage and frequency remaining the same since 2019. Instead, they discontinued use of anti-seizure medication in 2019.

Issued in Washington, DC, on June 18, 2026.

Edward Strocko,

Acting Director, Bureau of Transportation Statistics.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501 *et seq.*), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public

submit reports, keep records, or provide information to a third party. The OCC asks the OMB to extend its approval of the collection in this notice.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control No.: 1557–0248.

Type of Review: Regular.

Affected Public: Businesses or other for-profit.

Description: This generic information collection request (ICR) provides the OCC with a means to solicit qualitative stakeholder feedback in an efficient, timely manner, in accordance with the Federal government’s commitment to improving service delivery. Qualitative feedback is information that provides useful insights on perceptions and opinions but does not include statistical survey or quantitative results that can be attributed to the surveyed population. This qualitative feedback provides insights into stakeholder perceptions, experiences, and expectations; provides an early warning of issues with service; and/or focuses attention on areas where communication, training, or changes in operations might improve delivery of products or services. It also enables ongoing, collaborative, and actionable communications between the OCC and its stakeholders, while also utilizing feedback to improve program management.

The OCC’s solicitations for feedback target areas such as timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues related to service delivery. The OCC uses the responses to inform and plan efforts to improve or maintain the quality of service offered to the public. If the OCC does not collect this information, it will not have access to vital feedback from stakeholders.

Under this generic ICR, the OCC will submit a specific information collection for approval only if the collection meets the following conditions:

- It is voluntary;
- It imposes a low burden on respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and a low cost on both respondents and the Federal government;
- It is non-controversial and does not raise issues of concern to other Federal agencies;
- It is targeted to solicit opinions from respondents who have experience with the program or will have experience with the program in the near future;
