General Description of Collection: Insured state nonmember banks are required to notify the FDIC, under section 7 of the Bank Service Company Act (12 U.S.C. 1867), of the relationship with a bank service company. The Form FDIC 6120/06, Notification of Performance of Bank Services, may be used by banks to satisfy the notification requirement. There is no change in the method or substance of the collection. The estimated annual burden has decreased by 12 hours, from 325 hours in 2023 to 313 hours in this ICR. This decrease is attributable to a reduction in the estimated number of responses. The time and frequency of responses remain unchanged.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB's consolidated information system.

General Description of Collection: Part 360.6 of the FDIC's regulations sets forth certain conditions that must be satisfied for a securitization transaction sponsored by an insured depository institution to be eligible for special treatment in the event that the FDIC is appointed receiver or conservator. As part of these conditions, securitization documents must include certain disclosure and recordkeeping requirements. There is no change in the method or substance of the collection. The estimated annual burden remains unchanged from the 2023 estimate.
