Agricultural Marketing Service

[Doc No. AMS–SC–26–0991]

Export Fruit Acts; Notice of Request for Renewal of a Recordkeeping Burden

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request for renewal a recordkeeping burden for a currently approved information collection for the Export Fruit Acts covering exports of apples and grapes.

DATES: Comments on this notice must be received by September 15, 2026.

ADDRESSES: Interested persons are invited to submit written comments concerning this notice. Comments can be sent to the Docket Clerk, Market Development Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250–0237. Comments can also be submitted to the Docket Clerk electronically by email: MarketingOrderComment@usda.gov or via the internet at: <https://www.regulations.gov>. Comments should reference the docket number and the date and page number of this issue of the **Federal Register**. Comments submitted in response to this notice will be included in the record, will be made available to the public, and may be viewed at: <https://www.regulations.gov>. Please be advised that comments are posted to [regulations.gov](https://www.regulations.gov) without change.

FOR FURTHER INFORMATION CONTACT:

Taylor Johnson, Marketing Specialist, or Matthew Pavone, Chief, Rulemaking Services Branch, Market Development

Division, Specialty Crops Program, AMS, USDA, 1400 Independence Avenue SW, Stop 0237, Washington, DC 20250–0237; telephone: (202) 720–8085, or email: Taylor.Johnson3@usda.gov or Matthew.Pavone@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Export Fruit Regulations—Export Apple Act (7 CFR part 33) and the Export Grape and Plum Act (7 CFR part 35).

OMB Number: 0581–0143.

Expiration Date of Approval: December 31, 2026.

Type of Request: Renewal of a recordkeeping burden.

Abstract: Fresh apples and grapes grown in the United States shipped to any foreign destination must meet minimum quality and other requirements established by regulations issued under the Export Apple Act (7 U.S.C. 581–590) and the Export Grape and Plum Act (7 U.S.C. 591–599) (Acts), which are codified under 7 CFR part 33 and 7 CFR part 35, respectively. Both Acts were designed to promote foreign trade in the export of apples, grapes, and plums grown in the United States; to protect the reputation of American-grown commodities; and to prevent deception or misrepresentation of the quality of such products moving through foreign commerce. The Acts have been in effect since 1933 (apples) and 1960 (grapes). Currently, plums are not regulated under the Export Grape and Plum Act.

The Secretary of Agriculture is authorized to oversee the implementation of the Acts and issue regulations regarding the Acts accordingly. Regulations issued under the Acts cover exports of fresh apples and grapes grown in the United States and shipped to foreign destinations (except grapes shipped to Canada or Mexico and apples shipped in bulk bins to Canada). Certain limited quantity provisions may exempt some shipments from this information collection. Regulations issued under the Acts (§ 33.11 for apples and § 35.12 for grapes) require that the U.S. Department of Agriculture (USDA) officially inspect and certify that each export shipment of fresh apples and grapes complies with quality and shipping requirements effective under the Acts.

The information collection requirements in this request are essential to carry out the intent and

administration of the Acts and the information collection burden for this action is primarily in the form of recordkeeping. The currently approved collection under OMB No. 0581–0143 authorizes the use of an “Export Form Certificate” (SC–205). Federal or Federal-State Inspection Program (FSIP) inspectors use the Export Form Certificate to certify inspection of the shipment for exports bound for non-Canadian destinations. The certificate is not completed by exporters and is not filed with USDA by exporters. The certificates are retained by each exporter to verify their compliance with the Acts. To monitor compliance with regulations, shippers are required to maintain and provide, upon USDA's request, a paper or electronic copy of the SC–205 when needed. Based on amended procedures in 2016 that were approved by OMB for information collection purposes, carriers, which transport goods on behalf of shippers, are no longer required to maintain a copy of the SC–205.

Estimate of Burden: Public recordkeeping burden for this collection of information is estimated to average 0.108 hours per response.

Respondents (Recordkeepers): Apple and grape export shippers and carriers.

Estimated Number of Respondents: 200 (150 shippers and carriers of exported apples and 50 shippers and carriers of exported grapes).

Estimated Total Annual of Responses: 90,000.

Estimated Number of Responses per Respondent: 450.

Estimated Total Annual Burden on Respondents: 9,750.

Comments are invited on: (1) Whether this collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on those who respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Erin Morris

Administrator, Agricultural Marketing Service.

Foreign-Trade Zones Board

[B–83–2026]

Foreign-Trade Zone (FTZ) 37, Notification of Proposed Production Activity; Oerlikon Metco (US) Inc.; (Surface Coatings and Application Equipment); Westbury, New York

Oerlikon Metco (US) Inc. submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Westbury, New York within Subzone 37H. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on June 29, 2026.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include: aluminum oxide powder; chromium oxide powder; titanium oxide powder; yttrium stabilized zirconium oxide; sealants; mixtures of oxides and carbides; and, thermal spray coating machines (duty rate ranges from duty-free to 5.5%).

The proposed foreign-status materials/components include: tungsten carbide; contact grease; dry lubricant; Teflon spray; graphite atomizer; coolants; non-agglomerated carbides with metallic binders; water conditioning chemicals; plastic hoses; plastic hoses without fittings; plastic hoses with fittings; plastic parts for thermal-spray coating machines; plastic bottles; rubber connecting hoses; timing belts; rubber buffers for discharge funnels; ceramic insulating disks for gas distribution; ceramic insulating rings for gas distribution; glass sheets used in thermal spray coating; glass filter mats; round steel sire used for welding; stainless steel wire used for thermal spray coating; nickel alloy steel tubes;

steel seals; steel hoppers; steel screws; steel nuts; steel retaining rings; steel seal shafts; steel bolts; steel tension springs; steel pressure springs; steel sound absorbers; bronze alloy wire; copper bushings; copper adapters; nickel alloy power; nickel power with additions of chrome, aluminum, and bentonite; 14 gauge nickel wire; aluminum alloy powder with addition of silica and polyester; aluminum wire, of non-alloyed aluminum, cross section higher than 7 mm; aluminum insulating rings; aluminum container for powders; zinc aluminum alloy wire; tin wire; cobalt alloy powder; titanium alloy powder; chrome wire; ceramic metals (cermets) in powder form; hexagon keys with handle; teaching tool sets; quick clamping levers; non-alloy steel wire for welding or spray-coating; base metal wire for welding; base metal wire; drive unit for powder disc; steel shafts; rotary pumps; pressure transducers; electric fan; ceiling fans; fluid and electrical feedthrough; chillers; filter inserts for thermal spray coating machines; equipment rearing housings; equipment maintenance kits; hard drives; monitors; printed circuits; stirrers; powder feed tubes; flanged valves; gas switches; pressure regulators; solenoid valves; mechanical supply assemblies; groove ball bearings; sealing rings; steel planetary gears; toothed drive belts; pressure sensing switches; DC motors with gear for blunger drives; servo drives; AC servo motors; control transformers; transformers; power supply interface modules; electrical throttles; swivel axle guns; sealing lips for thermal spray coating machines; heating jackets; interfaces switches for thermal spray coating machines; RFIDs; service tools (software kits); transmitters; capacitors; ceramic capacitors; resistors; valve connectors; fuses; programmed relays; programmable controllers; key fobs and door interlocks, switch selectors; plug connectors and cable lugs; stirrer components; computer parts controlling thermal spray machines; interface modules; signal lamps; over-voltage limiters; amplifiers and converters; ignition devices; nozzles for thermal spray coating; cables and connectors for thermal spray coating; steel gauges; digital mass flow controllers and sensors for air and liquids; pressure transmitters and manometers; conductivity meters; flow switches; gas flow measuring modules; alignment valves; voltmeters; optical sensing heads; voltage frequency transducers; thermostats; diagnostic sets for thermal spray coating machines; and, powder

injectors (duty rate ranges from duty-free to 15%).

The request indicates that certain materials/components are subject to duties under section 122 of the Trade Act of 1974 (Section 122) or section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 122 and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is August 26, 2026.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Brian Warnes at brian.warnes@trade.gov.

Dated: July 14, 2026.

Elizabeth Whiteman,

Executive Secretary.
