II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “NRC Form 361, Reactor Plant Event Notification Worksheet; NRC Form 361A, Fuel Cycle and Materials Event Notification Worksheet; NRC Form 361N, Non-Power Reactor (NPR) Event Notification Worksheet; NRC Form 361S, Part 53 Plant Event Notification Worksheet.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 21, 2026, 91 FR 21333.

1. *The title of the information collection:* NRC Form 361, Reactor Plant Event Notification Worksheet; NRC Form 361A, Fuel Cycle and Materials Event Notification Worksheet; NRC Form 361N, Non-Power Reactor (NPR) Event Notification Worksheet; NRC

Form 361S, Part 53 Plant Event Notification Worksheet.

2. *OMB approval number:* 3150-0238.

3. *Type of submission:* Revision.

4. *The form number, if applicable:* NRC Form 361, NRC Form 361A, NRC Form 361N, NRC Form 361S.

5. *How often the collection is required or requested:* On occasion. NRC licensee events are reportable when they occur.

6. *Who will be required or asked to respond:* Holders of NRC licenses for commercial nuclear power plants, fuel cycle facilities, NRC material licensees, and nonpower reactors.

7. *The estimated number of annual responses:* 563.

8. *The estimated number of annual respondents:* 143.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 281.5.

10. *Abstract:* The NRC requires its licensees to report by telephone certain events and emergencies that have potential impact to public health and safety. In order to efficiently process the information received through such reports from licensees, the NRC created Forms 361, 361A, 361N, and 361S to provide a worksheet for licensees to record the information for the report. NRC licensees are not required to fill out or submit the form, but the form describes the order in which data about the event will be requested to enable a licensee to efficiently make the telephonic notification. Without the format provided by the NRC Forms 361, 361A, 361N, and 361S the information exchange between licensees and NRC Headquarters Operations Officers via telephone could result in delays in completing the notification as the licensee answers questions from the NRC staff taking the report.
