SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Software Catalog provides
public access to hundreds of NASA-
developed software tools and enables
users to request and obtain software
releases through a streamlined,
qualification-based submission process.
The information submitted by
government entities, companies,
academic institutions, and individuals
is a software request form for those who
wish to obtain NASA Software. All
software requestors must submit the
intended use of the software. The
collected information is used by NASA
to ensure that the software requestor

meets the qualifications to receive the
NASA software technology. NASA is
committed to effectively performing the
Agency's communication function in
accordance with Section 203(a)(3) of the
National Aeronautics and Space Act of
1958 (as amended) dictates that NASA
"provide for the widest practicable and
appropriate dissemination of
information concerning its activities and
the results thereof", and to enhance
public understanding of, and
participation in, the nation's
aeronautical and space program.

II. Methods of Collection

Electronically.
