Guardian Pipeline, LLC; Notice of Application and Establishing Intervention Deadline

Take notice that on July 1, 2026, Guardian Pipeline, L.L.C. (Guardian), 500 Woodward Avenue, Suite 2900, Detroit, Michigan 48226, filed an application under section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations requesting authorization for its Guardian 3 Expansion Project (G3 Expansion Project or Project) in Illinois and Wisconsin.

Specifically, as part of the G3 Expansion Project in Illinois, Guardian proposes: (i) construction of approximately 42.6 miles of 36-inch-diameter pipeline loop in Kendall and DeKalb Counties (Joliet Loop); (ii) construction of approximately 25.5 miles of 36-inch-diameter pipeline loop in DeKalb and McHenry Counties (Sycamore Loop); (iii) installation of two new 11,187 horsepower (HP) gas-fired compressor units at the existing Joliet Compressor Station in Will County; and (iv) modification of compression facilities at the existing Sycamore Compressor Station in DeKalb County.

Additionally, as part of the G3 Expansion Project in Wisconsin, Guardian proposes: (i) construction of a new 9,000 HP electric-driven Eden Compressor Station in Dodge County; (ii) removal of existing capacity controls at the Bluff Creek Compressor Station in Walworth County; and (iii) construction of the new Sheboygan Meter Station in Fond du Lac County, along with related appurtenances.

The Project will provide approximately 536,903 dekatherms per day of incremental firm transportation capacity in the Upper Midwest, particularly in Wisconsin. Guardian affirms that the Project is fully subscribed under executed binding precedent agreements with unaffiliated shippers. Guardian estimates the total Project cost to be approximately \$890 million and proposes incremental recourse rates and rolled-in rate treatment for the Project's fuel and electric power costs, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
