Foreign-Trade Zones Board

[B–83–2026]

Foreign-Trade Zone (FTZ) 37, Notification of Proposed Production Activity; Oerlikon Metco (US) Inc.; (Surface Coatings and Application Equipment); Westbury, New York

Oerlikon Metco (US) Inc. submitted a notification of proposed production activity to the FTZ Board (the Board) for its facility in Westbury, New York within Subzone 37H. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on June 29, 2026.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include: aluminum oxide powder; chromium oxide powder; titanium oxide powder; yttrium stabilized zirconium oxide; sealants; mixtures of oxides and carbides; and, thermal spray coating machines (duty rate ranges from duty-free to 5.5%).

The proposed foreign-status materials/components include: tungsten carbide; contact grease; dry lubricant; Teflon spray; graphite atomizer; coolants; non-agglomerated carbides with metallic binders; water conditioning chemicals; plastic hoses; plastic hoses without fittings; plastic hoses with fittings; plastic parts for thermal-spray coating machines; plastic bottles; rubber connecting hoses; timing belts; rubber buffers for discharge funnels; ceramic insulating disks for gas distribution; ceramic insulating rings for gas distribution; glass sheets used in thermal spray coating; glass filter mats; round steel sile used for welding; stainless steel wire used for thermal spray coating; nickel alloy steel tubes;

steel seals; steel hoppers; steel screws; steel nuts; steel retaining rings; steel seal shafts; steel bolts; steel tension springs; steel pressure springs; steel sound absorbers; bronze alloy wire; copper bushings; copper adapters; nickel alloy power; nickel power with additions of chrome, aluminum, and bentonite; 14 gauge nickel wire; aluminum alloy powder with addition of silica and polyester; aluminum wire, of non-alloyed aluminum, cross section higher than 7 mm; aluminum insulating rings; aluminum container for powders; zinc aluminum alloy wire; tin wire; cobalt alloy powder; titanium alloy powder; chrome wire; ceramic metals (cermets) in powder form; hexagon keys with handle; teaching tool sets; quick clamping levers; non-alloy steel wire for welding or spray-coating; base metal wire for welding; base metal wire; drive unit for powder disc; steel shafts; rotary pumps; pressure transducers; electric fan; ceiling fans; fluid and electrical feedthrough; chillers; filter inserts for thermal spray coating machines; equipment rearing housings; equipment maintenance kits; hard drives; monitors; printed circuits; stirrers; powder feed tubes; flanged valves; gas switches; pressure regulators; solenoid valves; mechanical supply assemblies; groove ball bearings; sealing rings; steel planetary gears; toothed drive belts; pressure sensing switches; DC motors with gear for blunger drives; servo drives; AC servo motors; control transformers; transformers; power supply interface modules; electrical throttles; swivel axle guns; sealing lips for thermal spray coating machines; heating jackets; interfaces switches for thermal spray coating machines; RFIDs; service tools (software kits); transmitters; capacitors; ceramic capacitors; resistors; valve connectors; fuses; programmed relays; programmable controllers; key fobs and door interlocks, switch selectors; plug connectors and cable lugs; stirrer components; computer parts controlling thermal spray machines; interface modules; signal lamps; over-voltage limiters; amplifiers and converters; ignition devices; nozzles for thermal spray coating; cables and connectors for thermal spray coating; steel gauges; digital mass flow controllers and sensors for air and liquids; pressure transmitters and manometers; conductivity meters; flow switches; gas flow measuring modules; alignment valves; voltmeters; optical sensing heads; voltage frequency transducers; thermostats; diagnostic sets for thermal spray coating machines; and, powder

injectors (duty rate ranges from duty-free to 15%).

The request indicates that certain materials/components are subject to duties under section 122 of the Trade Act of 1974 (Section 122) or section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 122 and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is August 26, 2026.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Brian Warnes at brian.warnes@trade.gov.

Dated: July 14, 2026.

Elizabeth Whiteman,

Executive Secretary.

Stationary and Portable Air Compressors From the People's Republic of China, Malaysia, and the Socialist Republic of Vietnam: Postponement of Preliminary Determinations in the Less-Than-Fair-Value Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable July 17, 2026.

FOR FURTHER INFORMATION CONTACT: Jinny Ahn at (202) 482–0339 (the People's Republic of China (China)), Anne Entz at (202) 482–3845 (Malaysia), and Patrick Barton at (202) 482–0012 (the Socialist Republic of Vietnam (Vietnam)), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On May 20, 2026, the U.S. Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of stationary and portable air compressors (air compressors) from

China, Malaysia, and Vietnam.¹ Currently, the preliminary determinations are due no later than October 7, 2026.

Postponement of Preliminary Determination

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in an LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) the petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On July 6, 2026, the petitioner² submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.³ The petitioner stated that it requested postponement because, *inter alia*, “this extension would allow petitioner’s counsel and other interested parties sufficient time to analyze the respondents’ questionnaire responses and provide comments on those responses.”⁴

For the reason stated above and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determinations by 50 days (*i.e.*, 190 days after the date on which these investigations were initiated). As a result, Commerce will issue its preliminary determinations no later than November 27, 2026.⁵ In

accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations of these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: July 10, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Certain Passenger Vehicle and Light Truck Tires From the People’s Republic of China: Preliminary Results and Rescission, in Part, of Antidumping Duty Administrative Review; 2024–2025

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that producers/exporters subject to this review made sales of subject merchandise at less than normal value during the period of review (POR), August 1, 2024, through July 31, 2025. In addition, we are rescinding the review with respect to 19 companies. Interested parties are invited to comment on these preliminary results of review.

DATES: Applicable July 17, 2026.

FOR FURTHER INFORMATION CONTACT: Eric Chen, AD/CVD Operations, Office IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2860.

SUPPLEMENTARY INFORMATION:

Background

On September 25, 2025, based on timely requests for review, in accordance with 19 CFR

351.221(c)(1)(i), we initiated an administrative review of the antidumping duty order on certain passenger vehicle and light truck (PVL) tires from the People’s Republic of China (China).¹ On October 15, 2025, Pirelli Tyre Co., Ltd. (Pirelli Tyre) timely withdrew its request for review.² On December 22, 2025, Qingdao Keter International Co., Limited (Keter) timely withdrew its request for review.³ Further, we intend to refer the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL–CIO, CLC’s (petitioner’s) concerns to CBP.⁴

Due to the lapse in appropriations and Federal Government shutdown, on November 14, 2025, Commerce tolled all deadlines in administrative proceeding by 47 days.⁵ Additionally, due to a backlog of documents that were electronically filed via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS) during the Federal Government shutdown, on November 24, 2025, Commerce tolled all deadlines in administrative proceedings by an additional 21 days.⁶ On July 2, 2026, Commerce extended the deadline for the preliminary results by three days.⁷ Accordingly, the deadline for these preliminary results is now July 13, 2026.

Scope of the Order

The merchandise covered by the scope of this *Order* is PVL tires from China. For a complete description of the scope of the *Order*, see Appendix I.

¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 90 FR 46173 (September 25, 2025) (Initiation Notice); see also *Certain Passenger Vehicle and Light Truck Tires from the People’s Republic of China: Amended Final Affirmative Antidumping Duty Determination and Antidumping Duty Order; and Amended Final Affirmative Countervailing Duty Determination and Countervailing Duty Order*, 80 FR 47902 (August 10, 2015) (*Order*).

² See Pirelli Tyre’s Letter, “Pirelli’s Withdrawal Request for AD Review,” dated October 15, 2025.

³ See Keter’s Letter, “Withdrawal of Request for Administrative Review,” dated December 22, 2025 (Keter Withdrawal).

⁴ See Petitioner’s Letters, “Petitioner’s Comments on Customs Entry Data,” dated December 18, 2025; and “Petitioner’s Comments and Rebuttal Information on Customs Entry Documents for Yongsheng,” dated May 1, 2026.

⁵ See Memorandum, “Deadlines Affected by the Shutdown of the Federal Government,” dated November 14, 2025.

⁶ See Memorandum, “Tolling of all Case Deadlines,” dated November 24, 2025.

⁷ See Memorandum, “Extension of Deadline for Preliminary Results of 2024–2025 Antidumping Duty Administrative Review,” dated July 2, 2026.

¹ See *Stationary and Portable Air Compressors from the People’s Republic of China, Malaysia, and the Socialist Republic of Vietnam: Initiation of Less-Than-Fair-Value Investigations*, 91 FR 31406 (May 27, 2026).

² The petitioner is MAT Industries, LLC.

³ See Petitioner’s Letter, “Petitioner’s Request to Postpone Preliminary Determinations,” dated July 6, 2026.

⁴ *Id.* at 2.

⁵ Postponing the preliminary determination to 190 days after initiation would place the deadline on Thursday, November 26, 2026, a federal holiday.

Commerce’s practice dictates that where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. See *Notice of Clarification: Application of “Next Business Day” Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).
