

the Commission's mission of ensuring the integrity of the price discovery and risk management functions of derivatives markets.

At the December 2022 meeting,² the AAC heard from agricultural leaders on "Domestic and International Shipping, Freight, and Storage Impacts on the Grain Trade." This presentation serves as an example of the intersection of CFTC policy, U.S. grain and oilseed markets, and international commerce and how the AAC serves as a true advisor to the Commission on practical matters that are at the core of the agricultural community.

In conclusion, this public interest determination documents that renewing the committee is in the public interest, essential to the conduct of agency business, and that the information to be obtained is not already available through another advisory committee or source within the Federal Government.

Dated: July 16, 2026.

Christopher Kirkpatrick,

Secretary of the Commission.
