DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and approval under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 19, 2026 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Voluntary Destruction of Imported Meat, Poultry, and Egg Products.

OMB Control Number: 0583–0182.

Summary of Collection: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, and properly labeled. Imported meat, poultry, and egg products that do not comply with U.S. requirements are not allowed to enter U.S. commerce and are identified as "U.S. Refused Entry" product. Inspection Program Personnel (IPP) are required to verify that U.S. refused entry product is stored and segregated from other product at an official import inspection establishment until final disposition occurs, or permission to move the shipment is granted by a FSIS Office of Field Operations (OFO) District Office (DO).

Need and Use of the Information: FSIS IPP uses the information during the observation of the product destruction to verify that the product being destroyed is the same product that was refused entry and that the product is controlled by the import establishment until destruction is completed. The Importer/Broker/Agent completes FSIS Form 9840–4, Voluntary Destruction of Imported Meat (Including Siluriformes), Poultry, and Egg Product, for product that will be destroyed under FSIS supervision.

Description of Respondents: Business or other for-profit.

Number of Respondents: 151.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 17,818.

Food Safety and Inspection Service

Title: Sanitation SOPs Pathogen Reduction/Hazard Analysis and Critical Control Point (HACCP).

OMB Control Number: 0583–0103.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary (7 CFR

2.18 and 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, and properly labeled. FSIS has established requirements applicable to meat and poultry establishments designed to reduce the occurrence and numbers of pathogenic microorganisms on meat and poultry products and reduce the incidence of foodborne illness associated with the consumption of those products.

Need and Use of the Information: FSIS will collect information to ensure compliance with regulations that require establishments to develop and implement written Sanitation Standard Operating Procedures (Sanitation SOPs); conduct regular microbial testing in slaughter facilities to verify the adequacy of process controls for preventing and removing fecal contamination and associated bacteria; meet Salmonella pathogen-reduction performance standards; and develop and implement Hazard Analysis and Critical Control Point (HACCP) systems as preventive controls to improve the safety of meat and poultry products.

Description of Respondents: Business or other for-profit.

Number of Respondents: 6,087.

Frequency of Responses: Recordkeeping; Reporting: On occasion; Other (daily).

Rural Utilities Service

Title: Broadband Technical Assistance Program.

OMB Control Number: 0572-0160.

Summary of Collection: The Rural eConnectivity Program (ReConnect) was authorized under 7 U.S.C. 901 *et seq.*, and Pub. L. 115-141, 779. The Funding Opportunity Announcement (FOA) will use technical assistance funds appropriated under the Infrastructure Investment and Jobs Act (IIJA) (Pub. L. 117-58). Applications received under the FOA will be administered by the Rural Utilities Service (RUS or the Agency), a Rural Development (RD) agency of the United States Department of Agriculture. The assistance instrument for this program will be through cooperative agreements which RD is authorized to administer pursuant to 7 U.S.C. 2204b(b)(4).

This FOA provides competitive cooperative agreement funding to eligible entities to ensure technical assistance and training is delivered to rural communities in need of high-speed internet and rural broadband providers. Program funds must be used to support broadband technical assistance activities which include, but are not limited to, project planning and community engagement, operations support, financial sustainability, environmental compliance, engineering,

accessing federal resources, and data collection and reporting. The goal of the program is to support the expansion of high-speed internet into unserved rural communities.

Need of Use of The Information:

Applications submitted for consideration will be reviewed for eligibility and completeness. Applications determined to be eligible will be evaluated according to the scoring criteria outlined in the FOA. The scoring criterion is targeted to applicants that demonstrate strong work plans, organizational capacity, clear performance metrics, and the ability to reach the most rural communities. Points are also available for projects benefitting targeted groups such as Tribes and Tribal Entities, colonias, persistent poverty counties, and distressed energy communities.

Failure to collect proper information from applicants could hinder the government's selection of funding recipients, and result in improper determinations of assistance, increase legal costs to the recipients as well as encumber customer service and, ultimately, slow the deployment of assistance to rural areas in need of high-speed internet. The timing of technical assistance is critical due to the historic levels of broadband funding made available under the IIJA. The programs created and funded under the IIJA are beginning to disburse funding and technical assistance is critical to ensure unserved rural communities are able to participate in these programs, successfully implement projects and properly manage funds.
