Passenger Vehicle and Light Truck Tires From Thailand: Final Results of Antidumping Duty Administrative Review; 2023–2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that Sentury Tire (Thailand) Co., Ltd. (Sentury) made sales of subject merchandise in the United States at prices below normal value (NV) during the period of review (POR), and Sumitomo Rubber (Thailand) Co., Ltd. (SRT) did not. The POR is July 1, 2023, through June 30, 2024. Commerce further determines that sales of subject merchandise made by the non-individually examined companies were at prices below NV.

DATES: Applicable July 20, 2026.

FOR FURTHER INFORMATION CONTACT: Myrna Lobo or Jacob Saude, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2371 or (202) 482–0981, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 14, 2026, Commerce published the *Preliminary Results* and invited comments from interested parties. On July 1, 2026, Commerce extended the deadline for the final results of this administrative review until July 13, 2026.[1] For details regarding the events that occurred since the *Preliminary Results, see* the Issues and Decision Memorandum.[2]

Scope of the Order [3]

The merchandise covered by the *Order* is passenger vehicle and light truck tires from Thailand. For a complete description of the scope of the *Order, see* the Issues and Decision Memorandum.[4]

Analysis of Comments Received

We addressed all issues raised in the case and rebuttal briefs filed in this administrative review in the Issues and Decision Memorandum. For a list of the issues raised by interested parties, *see* the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS), which is available to registered users at *https://access.trade.gov.* In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at *https://access.trade.gov/frnotices.*

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties, we made certain changes to the margin calculations for Sentury and SRT for these final results of review. As a result of these changes, the weighted-average dumping margin changed for Sentury and the companies not selected for individual examination, but not for SRT. For a discussion of these changes, *see* the Issues and Decision Memorandum.

Rates for Non-Examined Companies

The Tariff Act of 1930, as amended (the Act) and Commerce's regulations do not address the establishment of a weighted-average dumping margin to be determined for companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when determining the weighted-average dumping margin for companies which were not selected for individual examination in an administrative review.

Section 735(c)(5)(A) of the Act provides that Commerce will base the all-others rate on the weighted average of the estimated weighted-average dumping margins calculated for the individually examined respondents, excluding rates that are zero, de minimis, or based entirely on facts available. Where the estimated weighted-average dumping margin for each of the individually examined companies is zero, *de minimis,* or based entirely on facts available, section 735(c)(5)(B) of the Act provides that Commerce may use ''any reasonable method to establish the estimated all-others rate for exporters and producers not individually investigated, including averaging the estimated weighted-average dumping margins determined for the exporters and producers individually investigated.''

In this review, we calculated a dumping margin of zero for SRT and calculated an above-*de minimis* weighted-average dumping margin for Sentury. Accordingly, we have assigned only Sentury's estimated weighted-average dumping margin to the non-selected companies [5] consistent with section 735(c)(5)(B) of the Act.

Final Results of the Review

We determine the following estimated weighted-average dumping margins exist for the period July 1, 2023, through June 30, 2024.

Producer/exporter	Weighted-average dumping margin (percent)
Sentury Tire (Thailand) Co., Ltd	2.90
Sumitomo Rubber (Thailand) Co., Ltd	0.00
Review-Specific Rate for Non-Examined Companies [6]	2.90
