BILLING CODE 8421–02–P

NUCLEAR REGULATORY COMMISSION

[NRC–2017–0091]

Regulatory Analysis Guidelines; Regulatory Analysis Technical Evaluation Handbook; Withdrawal and Resolution of Public Comments

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is withdrawing NUREG/BR–0058, Revision 5, “Regulatory Analysis Guidelines of the

U.S. Nuclear Regulatory Commission,” and NUREG/BR–0184, “Regulatory Analysis Technical Evaluation Handbook.” The NRC continues to prepare regulatory analyses for rulemakings and other regulatory actions consistent with the principles of Office of Management and Budget (OMB) Circular A–4, “Regulatory Analysis,” and is discontinuing issuance of related NRC-specific guidance.

DATES: The withdrawal is effective July 21, 2026.

ADDRESSES: Please refer to Docket ID NRC–2017–0091 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2017–0091. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin ADAMS Public Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC’s PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: David Suchy, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–4130; email: David.Suchy@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC is withdrawing agency-specific regulatory analysis guidance documents NUREG/BR–0058, Revision 5,

“Regulatory Analysis Guidelines of the U.S. Nuclear Regulatory Commission,” (ADAMS Accession No. ML17100A480) and NUREG/BR–0184, “Regulatory Analysis Technical Evaluation Handbook” (ADAMS Accession No. ML050190193). The NRC previously issued NUREG/BR–0058, Revision 5, and various appendixes, for public comment. See 82 FR 18163, 86 FR 20208, and 87 FR 40280. The draft appendixes also incorporated pertinent information from NUREG/BR–0184, “Regulatory Analysis Technical Handbook.”

The six public comments associated with Docket ID NRC–2017–0091 were considered during the past revision efforts but the NRC will not be responding due to the withdrawal of NUREG/BR–0058 entirely, not just revision 5. The NRC is taking this action in response to Executive Order (E.O.) 14192, “Unleashing Prosperity Through Deregulation” (90 FR 9065; January 31, 2025) and E.O. 14215, “Ensuring Accountability for All Agencies” (90 FR 10447; February 18, 2025). Accordingly, the NRC will be preparing regulatory analyses for rulemakings and other regulatory actions consistent with the principles of OMB Circular A–4, “Regulatory Analysis,” making NUREG/BR–0058 and NUREG/BR–0184 unnecessary.

(Authority: 42 U.S.C. 2011 *et seq.*)

Dated: July 16, 2026.

For the Nuclear Regulatory Commission.

Araceli Billoch Colon,

Acting Director, Division of Guidance, Rulemaking, Economic Analysis, and Technical Editing, Office of Nuclear Material Safety and Safeguards.
