History

An NPRM was published in the **Federal Register** on April 7, 2026 (91 FR 17616) under Docket No. FAA–2026–3598, proposing to amend 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 7.6-mile radius of Rancho Paraiso Airport, Mountain Home, TX. Subsequent to publication, new airspace data was received, changing the airspace requirements. Therefore, the FAA is withdrawing the NPRM and expects to publish a new NPRM after fully evaluating the new data to establish Class E airspace extending upward from 700 feet above the surface at Rancho Paraiso Airport,

Mountain Home, TX, to support the new instrument procedures being developed.
