

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 648**

[Docket No. 260209–0039; RTID 0648–XF892]

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer From North Carolina to Massachusetts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2026 commercial summer flounder quota to the Commonwealth of Massachusetts. This adjustment to the 2026 fishing year quota is necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2026 commercial quotas for North Carolina and Massachusetts.

DATES: Effective July 20, 2026, through December 31, 2026.

FOR FURTHER INFORMATION CONTACT: Matthew Rigdon, Fishery Management Specialist, (978) 281–9336.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.111. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the final 2026 allocations were published on February 19, 2026 (91 FR 7896).

The final rule implementing amendment 5 to the FMP, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers or combinations would not preclude the

overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these three criteria have been met for the transfer approved in this notification.

North Carolina is transferring 5,000 pounds (lb; 2,268 kilograms (kg)) of summer flounder to Massachusetts through a mutual agreement between the states. This transfer was requested to repay landings made by an out-of-state permitted vessel under a safe harbor agreement. The revised summer flounder quotas for 2026 are: North Carolina, 2,902,006 lb (1,316,328 kg); and Massachusetts, 1,046,297 lb (474,592 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.102(c)(2)(i) through (iv), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 16, 2026.

Shannon Bettridge,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679**

[Docket No. 260305–0066; RTID 0648–XF422]

Fisheries of the Exclusive Economic Zone off Alaska; Pacific Cod by Catcher/Processors Using Trawl Gear in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by American Fisheries Act (AFA) trawl catcher/processors in the Bering Sea and Aleutian Islands management area

(BSAI). This action is necessary to prevent exceeding the annual 2026 Pacific cod total allowable catch (TAC) allocated to AFA trawl catcher/processors in the BSAI.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), July 20, 2026, through 1200 hours, A.l.t., December 31, 2026.

FOR FURTHER INFORMATION CONTACT:

Andrew Olson, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the BSAI (FMP) prepared and recommended by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The annual apportionment of the 2026 Pacific cod TAC allocated to AFA trawl catcher/processors in the BSAI is 2,712 metric tons (mt) as established by the final 2026 and 2027 harvest specifications for groundfish in the BSAI (91 FR 11750, March 10, 2026).

In accordance with § 679.20(d)(1)(i) and § 679.20(d)(1)(ii)(B), the Regional Administrator, Alaska Region, NMFS (Regional Administrator) has determined that the annual 2026 Pacific cod TAC allocated to AFA trawl catcher/processors in the BSAI is necessary to account for the incidental catch in other anticipated fisheries. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,112 mt and is setting aside the remaining 600 mt as incidental catch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been or will be reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by AFA trawl catcher/processors in the BSAI to prevent exceeding this sector's allocation of Pacific cod TAC.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data on Pacific cod catch in a timely fashion and would delay the closure of directed fishing for Pacific cod by AFA

trawl catcher/processors in the BSAI, which could lead to this sector exceeding its annual 2026 allocation of Pacific cod TAC. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data on Pacific cod catch only became available as of July 16, 2026.

There is good cause under 5 U.S.C. 553(d)(3) to establish an effective date less than 30 days after date of

publication. This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 16, 2026.

Shannon Bettridge,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
