environmental impacts of the no-action alternative would depend on the nature of an alternative separation method. Alternatively, DISA might choose not to operate HPSA, and section 2.2 of the 2025 generic EA describes other site remediation activities that could occur at the AUM waste sites.

Agencies and Persons Consulted

The NRC provided a draft of this EA for awareness to the 14 states identified by DISA for potential HPSA operations. The final EA will be sent to the U.S. Environmental Protection Agency, the 14 states, Federally recognized Indian tribes, and DISA.

The proposed action is a license amendment that itself has no potential to affect threatened or endangered species under the Endangered Species Act (ESA). Upon receiving the site-specific PMNs, the NRC will assess the potential effects of HPSA operations on threatened and endangered species at each site, and the need for consultation under Section 7 of the ESA for each site. The NRC staff's National Historic Preservation Act (NHPA) Section 106 responsibilities are complete for the licensing undertaking according to section 800.3(a)(1) title 36 of the *Code of Federal Regulations,* which states: ''If the undertaking is a type of activity that does not have the potential to cause effects on historic properties, assuming such historic properties were present, the agency official has no further obligations under Section 106 or this part.'' The NRC's consultation and assessment of the potential effects of HPSA operations on cultural and historic properties would occur when specific sites are identified.

IV. Finding of No Significant Impact

Based on its review, in accordance with the requirements of 10 CFR part 51, the NRC has determined that granting the license amendment would not significantly affect the quality of the human environment at a specific site if the site conditions, proposed operations, and potential impacts at the site are consistent with the assumptions and potential impacts assessed in this EA and in the 2025 generic EA. In accordance with 10 CFR 51.31, the NRC concludes that the proposed action does not warrant the preparation of an environmental impact statement, and, pursuant to 10 CFR 51.32, a FONSI is appropriate. If the PMN indicates there are differences in site conditions, proposed operations, or potential impacts, the NRC will evaluate whether these differences require further analysis. If DISA proposes to use a flocculant other than FLOPAM, DISA will need to include this information in the PMN and the NRC staff will determine whether additional environmental review is needed. Subject to confirmation of site-specific conditions and upon the successful conclusion of site-specific consultation under Section 106 of the NHPA, the NRC staff concludes that the proposed HPSA operations with the use of FLOPAM or other similar solid APAMs will not have significant impacts on historic and cultural resources at AUM waste sites. Subject to confirmation of site-specific conditions and upon the successful conclusion of site-specific consultation under Section 7 of the ESA, the NRC staff also concludes that the proposed HPSA operations with the use of FLOPAM or other similar solid APAMs will have no effect or would not be likely to adversely affect any Federally listed threatened or endangered species.

POSTAL REGULATORY COMMISSION

[Docket Nos. K2025–1611; MC2026–312 and K2026–308]

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* July 24, 2026.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at *https://www.prc.gov.* Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction

Pursuant to 39 CFR 3041.405, the Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to Competitive negotiated service agreement(s). The request(s) may propose the addition of a negotiated service agreement from the Competitive product list or the modification of an existing product currently appearing on the Competitive product list.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (*http://www.prc.gov*). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.[1]

Section II identifies the docket number(s) associated with each Postal Service request, if any, that will be reviewed in a public proceeding as defined by 39 CFR 3010.101(p), the title of each such request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each such request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 and 39 CFR 3000.114 (Public Representative). The Public Representative does not represent any individual person, entity or particular point of view, and, when Commission attorneys are appointed, no attorney-client relationship is established. Section II also establishes comment deadline(s) pertaining to each such request.

The Commission invites comments on whether the Postal Service's request(s) identified in Section II, if any, are consistent with the policies of title 39. Applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3041. Comment deadline(s) for each such request, if any, appear in Section II.

Section III identifies the docket number(s) associated with each Postal Service request, if any, to add a standardized distinct product to the Competitive product list or to amend a standardized distinct product, the title of each such request, the request's

acceptance date, and the authority cited by the Postal Service for each request. Standardized distinct products are negotiated service agreements that are variations of one or more Competitive products, and for which financial models, minimum rates, and classification criteria have undergone advance Commission review. *See* 39 CFR 3041.110(n); 39 CFR 3041.205(a). Such requests are reviewed in summary proceedings pursuant to 39 CFR 3041.325(c)(2) and 39 CFR 3041.505(f)(1). Pursuant to 39 CFR 3041.405(c)–(d), the Commission does not appoint a Public Representative or request public comment in proceedings to review such requests.

II. Public Proceeding(s)

1. *Docket No(s).:* K2025–1611; *Filing Title:* USPS Request Concerning Amendment One to Priority Mail & USPS Ground Advantage Contract 813, with Material Filed Under Seal; *Filing Acceptance Date:* July 16, 2026; *Filing Authority:* 39 CFR. 3035.105 and 39 CFR 3041.505; *Public Representative:* Jennaca Upperman; *Comments Due:* July 24, 2026.

III. Summary Proceeding(s)

1. *Docket No(s).:* MC2026–312 and K2026–308; *Filing Title:* USPS Request to Add New Mid-Market Standardized Distinct Product, PM–GA Contract 1045, and Notice of Filing Materials Under Seal; *Filing Acceptance Date:* July 16, 2026; *Filing Authority:* 39 U.S.C. 3642 and 3633, 39 CFR 3035.105, and 39 CFR 3041.325.

This Notice will be published in the **Federal Register**.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105931; File No. SR–ICC–2026–006]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Proposed Rule Change to the Risk Management Model Description for the CDS Clearing Service

July 16, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 [1] and Rule 19b–4,[2] notice is hereby given that on July 6, 2026, ICE Clear Credit LLC (''ICC'' or ''ICE Clear Credit'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II and III below, which Items have been prepared primarily by ICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to revise the Risk Management Model Description for the CDS Clearing Service. These revisions do not require any changes to the ICC CDS Clearing Rules (the ''Rules'').[3]

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] ICC's Rules are available on ICC's public website: *https://www.ice.com/publicdocs/clear_credit/ICE_Clear_Credit_Rules.pdf.*

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The primary purpose of the proposed rule change is to amend the Risk Management Model Description to enhance the contagion risk methodology. In particular, the proposed change is intended to improve risk management by introducing a new term, Profit Given Default (''PGD''), within the amended contagion risk methodology. As more fully described below, PGD is designed to provide portfolio benefits (*i.e.,* reduced risk requirements) when a Clearing Participant (''CP'') clears applicable offsetting positions. This change would enhance ICC's risk management by providing a more capital-efficient approach for capturing the accumulation of exposures that exhibit strong positive correlation between a CP and single name Risk Factors during stress market conditions.[4] In addition, this change would provide some portfolio benefits to incentivize CPs to hedge their accumulation of wrong-way-risk (''WWR'') exposure, while allowing ICC to continue to maintain a conservative approach to managing the accumulation of directional WWR exposure. In addition, ICC proposes minor revisions to update certain references to publicly available sources of information. ICC believes that such revisions will facilitate the prompt and accurate clearance and settlement of securities transactions and derivative agreements, contracts, and transactions for which it is responsible. ICC proposes to make such changes effective following Commission approval of the proposed rule change. The proposed revisions are described in detail as follows.

[4] Such conditions may arise when there is a strong positive correlation between a CP's default risk and the occurrence of large losses in a CP's portfolio.
