

meet current and future threats by contributing to shared security objectives, promote regional stability, and build interoperability with the United States. The KAF utilizes these aircraft to deter threats and protect national resources. This sale will support ongoing sustainment efforts, maintenance, repair, and provide the U.S. Navy program office (NAVAIR PMA 207) with the flexibility to perform the necessary sustainment actions based on KAF priorities. Kuwait will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be V2X, located in Madison, MS; Aviation Training Consulting located in Atlus, OK; CAE USA located in Tampa, FL; Dowty located in Evendale, OH; and Rolls Royce located in Indianapolis, IN. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: July 16, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. RSAT 26-0X

Report of Enhancement or Upgrade of Sensitivity of Technology or Capability (Sec. 36(B)(5)(C), AECA)

(i) *Prospective Purchaser:* Government of Poland

(ii) *Sec. 36(b)(1), AECA Transmittal No.:* 23-64

Date: September 11, 2023

Implementing Agency: Army

Funding Source: National Funds

(iii) *Description:* On September 11, 2023, Congress was notified by congressional certification transmittal number 23-64 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of ninety-three (93) Integrated Air and Missile Defense (IAMD) Battle Command System (IBCS) Engagement Operation Centers (EOCs); and one hundred seventy-five (175) IBCS Integrated Fire Control Network (IFCN) relays. Also included were network encryptors; IBCS software development and component integration; U.S. Government and contractor technical support; System Integration Lab (SIL) infrastructure; SIL test tools and equipment; U.S. Government and contractor technical support for SIL; flight test infrastructure and equipment; flight test targets; flight test range costs and fees; U.S. Government and Original Equipment Manufacturer (OEM) flight test services and support; and other related elements of logistics and program support. The estimated total cost was \$4 billion. Major defense equipment (MDE) constituted \$1.5 billion of this total.

This transmittal notifies the inclusion of the following MDE items: six (6) IAMD IBCS EOCs; and twelve (12) IBCS IFCN relays. The following non-MDE items will also be included: network encryptors; IBCS software development and component integration; U.S. Government and contractor technical support; Systems Integration Lab (SIL) infrastructure; SIL test tools and equipment; U.S. Government and contractor technical support for SIL; flight test infrastructure and equipment; flight test targets; flight test range costs and fees; and U.S. Government and OEM flight test services and support. The estimated total value of the new items is \$100 million. The estimated MDE value will increase by \$80 million to a revised \$1.58 billion. The estimated non-MDE value will increase by \$20 million to a revised \$2.52 billion. The estimated total case value will increase

by \$100 million to a revised \$4.1 billion. MDE constitutes \$1.58 billion of this total.

(iv) *Significance:* This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed sale will improve Poland's capability to meet current and future threats by providing a credible force that can deter adversaries and facilitate its participation in NATO operations. Poland will have no difficulty absorbing these articles and services into its armed forces.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:*

The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress:* June 23, 2025
