

The company plans to bulk manufacture the listed controlled substances for the internal use intermediates and analytical reference standards for sale to its customers. In reference to drug codes 7360 (Marihuana), and 7370 (Tetrahydrocannabinols), the company plans to bulk manufacture these drugs as synthetic. No other activities for these drug codes are authorized for this registration.

Thomas Prevoznik,
Deputy Assistant Administrator.

BILLING CODE 4410–09–P

DEPARTMENT OF JUSTICE

[OMB 1140–0097]

Agency Information Collection Activities; Proposed Collection; Comments Requested; Revision of a Previously Approved Collection; Title—Supplemental Information on Water Quality Considerations—ATF Form 5400.30

AGENCY: Bureau of Alcohol, Tobacco, Firearms, and Explosives; Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF), will be submitting the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: ATF encourages comments on this information collection. You may submit written comments until midnight on September 21, 2026.

ADDRESSES: Submit written comments and recommendations for this information collection, especially on the estimated public burden or associated response time, to Shawn Stevens, Federal Explosives Licensing Center, by email to FELC@atf.gov, or by mail to ATF–FELC: 244 Needy Road; Martinsburg, WV 25405. Identify comments by the OMB control number

1140–0097. You may view the proposed information collection instrument online at <https://www.atf.gov/rules-and-regulations/federal-register-actions/forms-and-information-collection>.

FOR FURTHER INFORMATION CONTACT: If you have questions or need a copy of the proposed information collection instrument with instructions or additional information, contact: Shawn Stevens, ATF–FELC, either by mail at 244 Needy Road; Martinsburg, WV 25405, by email at FELC@atf.gov, or by telephone at 304–616–4400. If you require additional information on DOJ’s ICR process for this renewal request, contact Darwin Arceo, Department Clearance Officer; United States Department of Justice; Justice Management Division, Enterprise Portfolio Management; Two Constitution Square, 145 N Street NE, 4W–218; Washington, DC.

SUPPLEMENTARY INFORMATION: We encourage written comments and suggestions from the public and affected agencies concerning the proposed information collection. Your comments should address one or more of the following four points:

- Evaluate whether the proposed information collection is necessary to properly perform ATF’s functions, including whether the information will have practical utility;
- Evaluate the agency’s estimate of the proposed information collection’s burden for accuracy, including validity of the methodology and assumptions used;
- Evaluate whether, and if so, how, the quality, utility, and clarity of the collected information can be enhanced; and
- Minimize the information collection’s burden on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting people to submit electronic responses.

Overview of This Information Collection

Abstract: A person engaged in the business of manufacturing explosives is required to have a license under the provisions of 18 U.S.C 843. The Federal Water Pollution Control Act, 33 U.S.C. 1341, requires manufacturers to certify that waste disposal practices are lawful with regard to impact on water sources. ATF Form 5400.30, Supplemental Information on Water Quality Considerations, serves this purpose and persons manufacturing explosives must submit it with their explosives license applications to ensure compliance with the water pollution control act.

Type of information collection: revising a previously approved collection.

Title of the form/collection: Supplemental Information on Water Quality Considerations.

Agency form number, if any, and the applicable component of the

Department sponsoring the collection:

Form number: ATF Form 5400.30.

Component: Bureau of Alcohol, Tobacco, Firearms, and Explosives; U.S. Department of Justice.

Affected public who will be asked or required to respond, as well as the obligation to respond: Affected public: private sector for-profit institutions. **Obligation to respond:** voluntary, required to obtain/retain a benefit.

Estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: There are an estimated 670 respondents associated with this information collection and each respondent completes the form once annually. It will take each respondent an average of approximately 20 minutes to complete their responses.

Estimate of the total annual burden (in hours) associated with the collection: The estimated annual public burden associated with this collection is 201 total hours, which is equal to 670 (total respondents) * 1 (# of responses per respondent) * 0.3 (20 minutes).

Estimate of the total annual other cost burden associated with the collection, if applicable: 0.

ESTIMATED TOTAL HOURLY BURDEN

Activity	Number of respondents	Frequency	Total annual responses	Time per response (hours)	Total annual burden (hours)
Completing Form 5400.30	670	1	670	0.3	201

Revisions to This Information Collection

ATF is revising information collection OMB 1140–0097 to reflect a decrease in the overall annual public burden. The number of respondents to this ICR have decreased from the last renewal in 2023, from 680 respondents to 670, because fewer persons applied for explosives licenses during the intervening three years. This decrease also resulted in a corresponding decrease in the hourly burden, from 340 hours to 335. In addition, because the forms have become entirely electronic, the amount of time required to complete this information collection has decreased from 0.5 to 0.3 hours, further decreasing the hourly burden for this ICR to 201 hours. As part of this ICR renewal, ATF is also revising the form number from ATF Form 5000.30 to ATF Form 5400.30 to align with changes to ATF's numbering structure, and is revising the title of the form and the ICR for plain writing purposes, from "Supplemental Information on Water Quality Considerations—Under 33 U.S.C. 1341(a)" to "Supplemental Information on Water Quality Considerations." In addition, ATF is making minor plain writing edits to text on the form, removing obsolete references to submitting multiple copies and to including a form or serial number, and is adding clarifying parentheticals to the applicant and signature boxes for entity applicants and responsible persons.

Dated: July 20, 2026.

Darwin Arceo,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-FY-P

NUCLEAR REGULATORY COMMISSION

[NRC–2026–1849]

Draft NUREG: Training Review Criteria and Procedures

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft report; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft NUREG–1220, Revision 2, "Training Review Criteria and Procedures." This NUREG provides guidance to NRC staff for reviewing training programs at nuclear power plants to verify that they are developed and maintained using a Systems Approach to Training (SAT). It

describes the review criteria and evaluation methods used by NRC staff for both initial training program reviews and ongoing training program inspections, and it summarizes the five SAT elements consistent with the framework outlined in ANSI/ANS–3.1–2014, as endorsed by Regulatory Guide 1.8, "Qualification and Training of Personnel for Nuclear Power Plants."

DATES: Submit comments by August 21, 2026. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following; however, the NRC encourages electronic comment submission through the Federal rulemaking website.

- *Federal rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2026–1849. Address questions about Docket IDs in *Regulations.gov* to Bridget Curran; telephone: 301–415–1003; email: Bridget.Curran@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *Mail comments to:* Office of Nuclear Material Safety and Safeguards, Mail Stop: TWFN–5–A85, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, ATTN: Guidance and Publications Branch.

For additional direction on obtaining information and submitting comments, see "Obtaining Information and Submitting Comments" in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Maggie Chauhan, telephone: 301–415–0365; email: Maggie.C Chauhan@nrc.gov and Jeff Correll, telephone: 301–415–2414; email: Jeffrey.Correll@nrc.gov. Both are staff of the Office of Advanced Reactors at the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2026–1849 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2026–1849.
- *NRC's Agencywide Documents Access and Management System*

(ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin ADAMS Public Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, at 301–415–4737, or by email to PDR.Resource@nrc.gov. Draft NUREG–1220, Revision 2, "Training Review Criteria and Procedures" is available in ADAMS under Accession No. ML26195A017.

- *NRC's PDR:* The PDR, where you may examine and order copies of publicly available documents, is open by appointment. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2026–1849 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

Draft NUREG–1220, Revision 2, proposes updated structured guidance for the NRC staff to review, approve, and inspect SAT programs for nuclear power plant personnel across large light-water reactors (LWRs), advanced reactors (including non-LWRs and stationary microreactors), and small modular LWRs. The guidance applies to initial training program submissions
