SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A. The **Federal Register** notice that solicited public comment on the

information collection for a period of 60 days was published on March 2, 2026 at 91 FR 10104.

A. Overview of Information Collection

Title of Information Collection: Survey of Market Absorption of New Multifamily Units.

OMB Approval Number: 2528-0013.

Type of Request: Extension of a currently approved collection.

Form Number: HUD Form SOMA.

Description of the need for the information and proposed use: The Survey of Market Absorption (SOMA) provides the data necessary to measure the rate at which new rental apartments and new condominium apartments are absorbed; that is, taken off the market, usually by being rented or sold, over the course of the first 12 months following completion of a building. The data are collected at quarterly intervals until the 12 months conclude, or until the units in a building are completely absorbed.

The survey also provides estimates of certain characteristics, including asking rent/price, number of units, and number of bedrooms. The survey provides a basis for analyzing the degree to which new apartment construction is meeting the present and future needs of the public.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
SOMA	12,000	4	48,000	0.125 (30 minutes total divided by 4 interviews.	6,000	\$44.50	\$267,000

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

C. Authority

Section 2 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.

Intent To Amend the Resource Management Plan and Prepare an Associated Environmental Assessment; Notice of Realty Action: Proposed Sale of Public Land and Reversionary Interest in Socorro County, NM

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent and realty action.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended (FLPMA), the Bureau of Land Management (BLM) New Mexico State Director intends to prepare a resource management plan (RMP) amendment with an associated environmental assessment (EA) for a non-competitive direct sale of public land in Socorro County, New Mexico. Additionally, the BLM will analyze a non-competitive direct sale of a 10-acre parcel reversionary interest conveyance on a Recreation and Public Purpose (R&PP) patent. By this notice the BLM is announcing the beginning of the scoping period to solicit public comments and identify issues, providing the planning criteria for public review, and announcing a comment period on the proposed realty action offering for sale a parcel of public land and reversionary interest.

DATES: The BLM requests that the public submit comments concerning the scope of the analysis, potential alternatives,

and identification of relevant information and studies by September 8, 2026. To afford the BLM the opportunity to consider issues raised by commenters in the Draft RMP Amendment and EA, please ensure your comments are received prior to the close of the 45-day scoping period or 15 days after the last public meeting, whichever is later.

ADDRESSES: You may submit comments on issues and planning criteria related to the Proposed RMP Amendment and Non-Competitive Direct Sale of Public Land in Socorro County, New Mexico, by any of the following methods:

- Website: <https://eplanning.blm.gov/eplanning-ui/project/2040546/510>.
- Mail: BLM Socorro Field Office, ATTN: Socorro Field Office Manager, 901 South Hwy. 85, Socorro, New Mexico 87801.

Documents pertinent to this proposal may be examined online at the website above and at the Socorro Field Office.

FOR FURTHER INFORMATION CONTACT:

BLM Socorro Field Office Assistant Field Manager, Alec Bryan, telephone (575) 838–1290, email: abryan@blm.gov. Contact Mr. Bryan to have your name added to our mailing list. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The BLM will consider a non-competitive direct sale of 10 acres of public land and the conveyance of 10 acres of Federal reversionary interest in R&PP patent, 30–66–0141 to the Board of County Commissioners, in Socorro County, for a flood detention pond. The BLM proposes the non-competitive direct sale because this action serves an important local public objective of facilitating the protection of the town of San Antonio by minimizing flood potential. The sale of reversionary interest to the Socorro County Board of County Commissioners is requested due to the reversionary clause in patent 30–66–0141, which restricts the purposes for which the land can be used. If the BLM determines the proposed sale is in the best interest of the public, the BLM will ensure the Federal Government receives fair compensation for the sale. The fair market appraisal value is \$27,500 for 10 acres of public land and 10 acres of reversionary interest. The public land and reversionary interest would not be

offered for sale prior to 60 days from the date of publication of this notice in the **Federal Register**.

This document provides notice that the BLM New Mexico State Director intends to prepare an RMP amendment with an associated EA for the non-competitive direct sale of public land in Socorro County, New Mexico, announces the beginning of the scoping process, and seeks public input on issues and planning criteria. The RMP amendment is being considered to allow the BLM to evaluate the disposal of 10 acres of public land to the Socorro County Board of County Commissioners. An amendment to the existing 2010 Socorro RMP is required to identify the public land as available for disposal. The direct sale is subject to the applicable provisions of section 203 of FLPMA and BLM land-sale regulations at 43 CFR part 2710. Publication of this notice in the **Federal Register** also segregates the subject public land from all forms of appropriation under the public land laws, including the general mining laws, and from the mineral leasing and geothermal leasing laws, except for the sale provisions of FLPMA.

The planning area is in the unincorporated town of San Antonio in Socorro County, New Mexico, and encompasses approximately 10 acres of public land and 10 acres of reversionary interest of R&PP patented land. San Antonio is approximately 10 miles south of Socorro, New Mexico.

The scope of this land use planning process does not include addressing the evaluation or designation of areas of critical environmental concern (ACECs), and the BLM is not considering ACEC nominations as part of this process.

Purpose and Need

The need of the proposed action is to respond to the request from the Socorro County Board of County Commissioners for a FLPMA non-competitive sale of public land and the conveyance of Federal reversionary interest associated with the R&PP patent. The purpose for the proposed action is to transfer from Federal ownership the small parcel of land that is logistically and economically difficult to manage (FLPMA, 43 U.S.C. 1713(a)(1)). The BLM needs to amend the 2010 Socorro RMP because section 203 of FLPMA specifically requires that land made available for disposal under the sale authority be clearly identified in the relevant land use plan. The BLM proposes to amend the 2010 Socorro RMP to identify the parcel of public land as available for disposal through sale. Additionally, the EA will analyze
