

DEPARTMENT OF LABOR**Bureau of Labor Statistics****Agency Information Collection Activities; Submission for OMB Review; Current Population Survey—Basic Labor Force**

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Bureau of Labor Statistics (BLS)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before August 24, 2026.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The labor force data gathered through the Current Population Survey (CPS) are provided to users in the greatest detail possible, consistent with the demographic information obtained in the survey. In brief, the labor force data can be broken down by sex, age, race, ethnicity, marital status, family composition, educational level, certification and licensing status, disability status, and various other characteristics. Through such breakdowns, one can focus on the employment situation of specific

population groups as well as on the general trends in employment and unemployment. Moreover, the survey yields data on the characteristics of people who have stopped looking for work because they believe no jobs are available, also referred to as discouraged workers. Information of this type can be obtained only through demographically-oriented surveys such as the CPS. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 30, 2026 (91 FRN 23310).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL–BLS.

Title of Collection: Current Population Survey—Basic Labor Force.

OMB Control Number: 1220–0100.

Affected Public: Individuals or Households.

Total Estimated Number of Respondents: 41,000.

Total Estimated Number of Responses: 492,000.

Total Estimated Annual Time Burden: 66,420 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Senior Paperwork Reduction Act Analyst.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA–2026–031]

Agency Information Collection Activities; Renewal of Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is seeking renewal of the Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of

Qualitative Feedback on Agency Service Delivery.” This ICR expires in December 2026. As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, this generic ICR covers all of our requests for feedback on our services. We invite your comments on this ICR.

DATES: We must receive written comments on or before September 21, 2026.

ADDRESSES: Send comments to surveys@nara.gov.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Kristin Phillips, Paperwork Reduction Act Officer, by email at kristin.phillips@nara.gov or by telephone at 616–254–0405.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104–13), we invite the public and other Federal agencies to comment on proposed information collections. If you have comments or suggestions, they should address one or more of the following points: (a) whether the proposed information collection is necessary for NARA to properly perform its functions; (b) our estimate of the burden of the proposed information collection and its accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether the collection affects small businesses.

We will summarize any comments you submit and include the summary in our request for OMB approval. All comments will become a matter of public record.

In this notice, we solicit comments concerning the following information collection:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB number: 3095–0070.

Type of Review: Regular.

Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Governments.

Estimated Number of Respondents: 27,000.

Below we provide projected average estimates for the next three years:

Average expected annual number of activities: 26.

Average number of respondents per activity: 1,038.

Annual responses: 1.

Frequency of response: Once per request.

Average minutes per response: 10–30.
Burden hours: 13,500.

Abstract: This information collection activity provides a means to gather qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with NARA's commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights into customers' or stakeholders' perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study. Qualitative feedback provides insights into perceptions, experiences, and expectations, provides an early warning of issues with service, or focuses attention on areas where communication, training, or changes in operations might improve delivery of products or services. Collecting this information allows for ongoing, collaborative, and actionable communications between NARA and its customers and stakeholders. It also allows us to contribute feedback directly to improving program management.

NARA collects feedback in areas of service delivery such as timeliness, appropriateness, accuracy of information, plain language, courtesy, efficiency, and resolution of issues with service delivery. We use customer feedback to plan efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on NARA's services will be unavailable.

NARA will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collection is voluntary;
- The collection is low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and is low-cost for both the respondents and the Federal Government.
- The collection is non-controversial and does not raise issues of concern to other Federal agencies;
- It is targeted to solicit opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management

purposes and is not intended for release outside of the agency;

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results, but do not fall under the current generic collection.

As a general matter, information collections under this generic collection request will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Current Actions: NPRC Survey of Customer Satisfaction, National Archives Catalog Feedback, Revolutionary War Pension File Transcription, National Outreach Program Initiative (NOPI), and Event Evaluations.

Gulam Shakir,

Executive for Information Services/CIO.

NUCLEAR REGULATORY COMMISSION

[NRC–2025–0052]

Information Collection: NRC Form 313, Application for Materials License and NRC Forms 313A (Radiation Safety Officer (RSO)), 313A (AMP), 313A (Authorized Nuclear Pharmacist (ANP)), 313A (Authorized User Training, Experience and Preceptor Attestation (AUD)), 313A (Authorized User Training, Experience, and Preceptor Attestation (AUT)), and 313A (Authorized User Training, Experience and Preceptor Attestation (AUS))

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, “NRC Form 313, Application for Materials License and NRC Forms 313A (Radiation Safety Officer (RSO)), 313A (AMP), 313A (Authorized Nuclear Pharmacist (ANP)), 313A (Authorized User Training, Experience and Preceptor Attestation (AUD)), 313A (Authorized User Training, Experience, and Preceptor Attestation (AUT)), and 313A (Authorized User Training, Experience and Preceptor Attestation (AUS)).”

DATES: Submit comments by August 24, 2026. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Kristen Benney, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–6355; email: Infocollects.Resource@nrc.gov.
