

accordance with 43 CFR 2807.15 and 43 CFR 2886.15.

The notification of the proposed RMP amendment and EA and, if applicable, signed finding of no significant impact (FONSI) would begin a 30-day protest period subject to BLM Manual Section 2711.1 step 4(d) on the land-sale decision. The BLM New Mexico State Director will review all protests and may sustain, vacate, or modify the RMP amendment and land and Federal interest sale, in whole or in part. In the absence of any protests and FONSI, the BLM may select the approved RMP amendment alternative and prepare a decision record which would document the final determination of the Department of the Interior for the land and Federal interest sale.

In addition to publication of this notice in the **Federal Register**, the BLM will publish this notice in the *El Defensor Chieftain* newspaper once a week for three consecutive weeks. Any other subsequent notices related to the RMP amendment and land, and Federal interest sale may also be published in the *El Defensor Chieftain* newspaper.

Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in this planning effort: outdoor recreation, archaeology, wildlife, land and realty, soils, vegetation, paleontology, geology, air quality, sociology, and economics.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed plan amendment, and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plan amendment or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation; it may also be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536), and section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public

involvement requirements of section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual Section 1780, and other Departmental policies. The BLM will send invitations to potentially affected Tribal Nations prior to consultation meetings. The BLM will provide additional opportunities for government-to-government consultation during the NEPA process. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Tribal Nations and stakeholders that may be interested in or affected by the Proposed RMP Amendment and Non-Competitive Direct Sale of Public Land and Reversionary Interest in Socorro County, New Mexico, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.
