

Federal agency ensures that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

NMFS Office of Protected Resources is authorizing take of the Mexico Distinct Population Segment (DPS) of humpback whale, which are listed as threatened under the ESA. NMFS requested consultation under section 7 of the ESA on May 11, 2026. The NMFS Alaska Regional Office issued a Biological Opinion under section 7 of the ESA, on the issuance of the IHAs to ADOT&PF under section 101(a)(5)(D) of the MMPA by the NMFS Office of Protected Resources. The Biological Opinion concluded that the action is not likely to jeopardize the continued existence of the humpback whale (Mexico DPS) and is not likely to destroy or adversely modify critical habitat for this species.

#### Authorization

Accordingly, consistent with the requirements of section 101(a)(5)(D) of the MMPA, NMFS has issued two IHAs to ADOT&PF for authorization to take marine mammals incidental to the Ward Creek Bridge Replacement project in Ketchikan, AK.

Dated: July 23, 2026.

**SUPPLEMENTARY INFORMATION:** Under the PRA, 44 U.S.C. 3501 *et seq.*, Federal agencies must obtain approval from the Office of Management and Budget (“OMB”) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this

requirement, the CFTC is publishing notice of the proposed extension of the currently approved collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**Title:** Process for Review of Swaps for Mandatory Clearing (OMB Control No. 3038–0097). This is a request for an extension of a currently approved information collection.

**Abstract:** The Commodity Exchange Act and Commission regulations require a derivatives clearing organization (“DCO”) that wishes to accept a swap for clearing to be eligible to clear the swap and to submit the swap to the Commission for a determination as to whether the swap is required to be cleared. Commission regulation 39.5 sets forth the process for these submissions. The Commission will use the information in this collection to determine whether a DCO that wishes to accept a swap for clearing is eligible to clear the swap and whether the swap should be required to be cleared.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

**Burden Statement:** The respondent burden for this collection is estimated to be as follows:

**Respondents/Affected Entities:**

Derivatives clearing organizations.

**Estimated Number of Respondents:** 24.

**Estimated Average Burden Hours per Respondent:** 40 hours.

**Estimated Total Annual Burden Hours:** 960 hours.

**Frequency of Collection:** On occasion; a DCO is only required to make a one-time submission before it first accepts a swap for clearing.

There are no capital costs or operating and maintenance costs associated with this collection.
