Abstract of Proposed Collection

The DS-1884, "Petition to Classify Special Immigrant Under INA 203(b)(4) as an Employee or Former Employee of the U.S. Government Abroad, or the Surviving Spouse or Child of an Employee of the U.S. Government Abroad," solicits information from aliens claiming employment-based immigrant visa preference under section 203(b)(4) of the Immigration and Nationality Act based on qualification as a special immigrant described in section 101(a)(27)(D) of the Immigration and Nationality Act. The DS-1884 form is used to file an immigrant visa petition by an eligible alien employee or qualifying former alien employee of the U.S. government abroad who performed faithful service for at least 15 years in exceptional circumstances; or the surviving spouse or child of an alien employee of the U.S. government abroad who performed faithful service for at

least 15 years or was killed in the line of duty. The DS-1884 petition solicits information that will assist the consular officer in ensuring that the alien is statutorily qualified to receive such status.

Methodology

The applicant can obtain a paper copy of the petition from consular posts abroad, or retrieve an electronic copy from <https://eforms.state.gov/>. The completed form can be submitted in person at the consular section in the applicant's resident location, or via mail or email with the consular section. Individuals may file the petition at an alternative consular section if a consular officer finds that emergent or humanitarian circumstances warrant such an action.

Stuart R. Wilson,

Deputy Assistant Secretary, Bureau of Consular Affairs, Department of State.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The information collection activity will garner qualitative customer feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. This qualitative feedback will provide insights into customer perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable

communications between the Agency and its customers. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Methodology

Respondents will fill out a brief customer survey after completing their interaction with a Department Program Office or Embassy. Surveys are designed to gather feedback on the customer's experiences.

Acting Director, Office of Privacy and Organizational Policy, Department of State.
