Type of Review: Revision of a currently approved collection.

Abstract: PayVA (Pay Now Enter Info Page—pay.va.gov) is used by the VA Debt Management Center (DMC) to verify debts that are active at DMC before the indebted person makes a payment. PayVA collects basic debt information from the respondent and redirects them to pay.gov (a Department of Treasury website) for online payments. PayVA then collects responses from pay.gov to verify payment.

The change in burden was the result of more payments being made electronically through the [pay.va](http://pay.va.gov)

platform and a higher number of overall overpayment debts owed to the VA.

Affected Public: Individuals.

Estimated Annual Burden: 42,878 hours.

Estimated Average Burden per Respondent: 10 minutes.

Frequency of Response: On occasion.

Estimated Number of Respondents: 257,266.

Title: Financial Status Report, VA Form 5655.

OMB Control Number: 2900-0165.

<https://www.reginfo.gov/public/do/PRAsearch> (Once at this link, you can enter the OMB Control Number to find the historical versions of this Information Collection).

Type of Review: Revision of a currently approved collection.

Abstract: The major use of the form is to document and support the eligibility determinations for waivers of collection, for the consideration of compromise offers, determine financial hardship suspensions, and/or for assisting in the development of repayment plans for overpayment debts owed to the VA.

The burden has increased since the previous approval due to the resumption of collections of debts that were suspended during the Coronavirus 2019 (COVID-19) Pandemic. Collection was paused on new debts effective April 2020 at the Debt Management Center (DMC). Collection action resumed beginning May 2022 for suspended debts, and additional debts continue to be created, returning operations to normal.

Additionally, DMC also no longer requires VA Form 5655 to approve repayment plans extending 60 months or fewer. Previously, VA Form 5655 was required to approve repayment plans extending greater than 12 months. Repayment plans on compensation and pension benefit overpayments now also automatically extend for 36 months instead of 12 months when over the minimum monthly payment threshold.

Form usage has fluctuated due to the above-mentioned policy changes and collections restarting.

Estimated Average Burden per Respondent: 60 minutes.

Frequency of Response: On occasion and/or annually.
