SUPPLEMENTARY INFORMATION: The ROD identifies NRCS's selected alternative for the Clarke County Water Supply Project, as described in the February 2026 Final Plan-EIS for Clarke County, Iowa. NRCS reached its decision after reviewing the Final Plan-EIS, which is available on the NRCS project website listed in the **ADDRESSES** section of this notice and was announced on April 10, 2026, through a notice of availability (91 FR 18456), in accordance with the requirements of 7 CFR 650. The Final Plan-EIS evaluated the proposed action, the no-action alternative, and other alternatives. NRCS has selected the proposed action alternative titled "Water Supply Reservoir with Dam at Site 4B Alternative."

The ROD documents the basis for NRCS's decision on the selected alternative, including the mitigation measures that will be implemented and the environmental, social, and economic factors considered under the National Environmental Policy Act. NRCS concludes that the selected alternative provides the most balanced approach to meeting project objectives while minimizing adverse effects.

NRCS reviewed and considered all substantive comments received on the Final Plan-EIS following publication of the notice of availability on April 10, 2026 (91 FR 18456). While the comments did not require changes to the Final Plan-EIS, a summary of the comments and NRCS's responses is available on the NRCS project website listed in the Addresses section of this notice. Watershed planning is authorized by the Watershed Protection and Flood Prevention Act of 1954 (Pub. L. 83-566), as amended, and the Flood Control Act of 1944 (Pub. L. 78-534).

Jaia Fischer,

Acting Iowa State Conservationist, Natural Resources Conservation Service.
