

final determination; (2) if the exporter is not a respondent identified above, but the producer is, then the cash deposit rate will be equal to the company-specific estimated weighted-average dumping margin established for that producer of the subject merchandise; and (3) the cash deposit rate for all other producers and exporters will be equal to the estimated weighted-average dumping margin for all other producers and exporters. These suspension of liquidation instructions will remain in effect until further notice.

U.S. International Trade Commission

In accordance with section 735(d) of the Act, Commerce will notify the U.S. International Trade Commission (ITC) of its final affirmative determination of sales at LTFV. Because Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of subject merchandise no later than 45 days after this final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all cash deposits will be refunded or canceled, and suspension of liquidation will be lifted. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instructions by Commerce, antidumping duties on all imports of the subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation, as discussed above in the "Continuation of Suspension of Liquidation" section above.

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Identifying Aquaculture Opportunity Areas in U.S. Waters

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for information.

SUMMARY: NOAA is issuing this request for information (RFI) to collect information to help identify the next geographic region(s) of focus for Aquaculture Opportunity Areas (AOA) identification. On May 7, 2020, the White House issued an Executive Order (E.O.) on Promoting American Seafood Competitiveness and Economic Growth, which requires the Secretary of Commerce to identify geographic areas containing locations suitable for commercial aquaculture. These geographic areas are referred to as AOAs. NOAA requests data, comments, views, information, analysis, or suggestions from the public to support the identification of AOAs in U.S. waters, including geographic areas of focus. NOAA requests that interested parties provide relevant information on the identification of areas within U.S. waters for future AOAs. The public input provided in response to this RFI will inform NOAA as it works with other Federal agencies, Regional Fishery Management Councils, and in coordination with state, jurisdictional and tribal governments to identify AOAs nationally. NOAA will combine input received through consultation and coordination with Federal and non-Federal stakeholders, comments on this notice, and spatial analyses by NOAA's National Centers for Coastal Ocean Science (NCCOS), to help identify the next geographic area(s) to focus on for AOA identification. Please respond to the questions in the **SUPPLEMENTARY INFORMATION** section, as appropriate.

DATES: Interested persons are invited to submit written comments on or before September 13, 2026. Three webinar-based listening sessions are scheduled. Comments on each topic area will be accepted at all meetings:

1. August 6, 2026, 6 p.m. to 7 p.m. Pacific (PDT)
2. August 13, 2026, 12 p.m. to 1 p.m. Hawaii (HST)
