DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are required regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 31, 2026 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Farm Service Agency

Title: 7 CFR 765, Direct Loan Servicing—Regular.

OMB Control Number: 0560–0236.

Summary of Collection: FSA's Farm Loan Programs (FLP) provide loans to family farmers to purchase real estate and equipment, and finance agricultural production. Direct Loan Servicing—Regular, as specified in 7 CFR part 765, provides the requirements related to regular and routine servicing actions associated with direct loans. FSA is required to actively supervise its borrowers and provide credit counseling, management advice and financial guidance. Additionally, FSA must document that credit is not available to the borrower from commercial credit sources for borrowers to maintain eligibility for assistance. Information collections established in the regulation are necessary for FSA to monitor and account for loan security, including proceeds derived from the sale of security, and to process a borrower's request for subordination, partial release of security, or consent. Borrowers are required to provide financial information to determine graduation eligibility based on commercial lender standards provided to FSA.

FSA is retiring form FSA–2060 "Application for Partial Release, Subordination (Real or Personal), or Consent". The form FSA–2061 "Application for Partial Release or Consent," and form FSA–2062 "Application for Subordination of Security for Commercial Credit" are new forms; both new forms captured the information previously requested on the FSA–2001 and FSA–2060 that will replace the FSA–2060 and eliminating the need for FSA–2001 for regular and routine servicing requests.

Need and Use of the Information: Information requested under this collection is submitted by borrowers to the local agency office serving the county in which their business is headquartered. The information is used by FLP to manage application of proceeds from the sale of agency security, consider whether a borrower is in compliance with their loan covenants, assist the borrower in achieving their business goals, conduct day-to-day management of the agency's

loan portfolio, and ensure that the agency's interests are protected. Failure to collect the information or collecting it less frequently could result in the failure of the farm operation or loss of agency security, property or position.

Description of Respondents: Business or other for-profit; farms.

Number of Respondents: 109,568.

Frequency of Responses: Reporting: On occasion; annually.

Total Burden Hours: 36,275.

Rachelle Ragland-Greene,

Departmental Information Collection Clearance Officer.

Natural Resources Conservation Service

Record of Decision on Clarke County Water Supply Project Final Plan-Environmental Impact Statement, Clarke County, Iowa

AGENCY: Natural Resources Conservation Service (NRCS), United States Department of Agriculture (USDA).

ACTION: Notice of availability; record of decision.

SUMMARY: NRCS announces the availability of the Record of Decision (ROD) for the Clarke County Water Supply Project Plan and Final Plan-Environmental Impact Statement (Final Plan-EIS) in Clarke County, Iowa. NRCS has selected the "Water Supply Reservoir with Dam at Site 4B Alternative" as the preferred alternative. This alternative includes constructing an earth-fill embankment dam with a reinforced concrete pressure-pipe principal spillway and vegetated auxiliary spillway; installing a water-supply pipeline (including a pumping station and ground storage reservoir) to transport water from the reservoir to the water-treatment plant; and relocating a segment of a local road (Truro Pavement).

ADDRESSES: The ROD and Final Plan-EIS are available on the NRCS project website at: <https://www.nrcs.usda.gov/state-offices/iowa/clarke-county-water-supply-project>.

FOR FURTHER INFORMATION CONTACT: Michael (Scott) Cagle, (515) 323–2211,

michael.cagle2@usda.gov. Individuals with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720-2600 (voice and text telephone (TTY mode)) or dial 711 for Telecommunications Relay Service (both voice and text telephone users can initiate this call from any telephone).

SUPPLEMENTARY INFORMATION: The ROD identifies NRCS's selected alternative for the Clarke County Water Supply Project, as described in the February 2026 Final Plan-EIS for Clarke County, Iowa. NRCS reached its decision after reviewing the Final Plan-EIS, which is available on the NRCS project website listed in the **ADDRESSES** section of this notice and was announced on April 10, 2026, through a notice of availability (91 FR 18456), in accordance with the requirements of 7 CFR 650. The Final Plan-EIS evaluated the proposed action, the no-action alternative, and other alternatives. NRCS has selected the proposed action alternative titled "Water Supply Reservoir with Dam at Site 4B Alternative."

The ROD documents the basis for NRCS's decision on the selected alternative, including the mitigation measures that will be implemented and the environmental, social, and economic factors considered under the National Environmental Policy Act. NRCS concludes that the selected alternative provides the most balanced approach to meeting project objectives while minimizing adverse effects.

NRCS reviewed and considered all substantive comments received on the Final Plan-EIS following publication of the notice of availability on April 10, 2026 (91 FR 18456). While the comments did not require changes to the Final Plan-EIS, a summary of the comments and NRCS's responses is available on the NRCS project website listed in the Addresses section of this notice. Watershed planning is authorized by the Watershed Protection and Flood Prevention Act of 1954 (Pub. L. 83-566), as amended, and the Flood Control Act of 1944 (Pub. L. 78-534).

Jaia Fischer,

Acting Iowa State Conservationist, Natural Resources Conservation Service.
